TEAM

SOBERANES FIRE

CA-BEU-003422

PNKG7Z

OPERATIONAL PERIOD

FRIDAY AUGUST 26th 0700

to

SATURDAY AUGUST 27th 0700

INCIDENT OBJECTIVES (ICS 202)

SOBERANES	**2. Operational Period:** Date From: 8/26/16 Date To: 8/27/16 Time From: 0700 Time To: 0700

Incident Strategy

The suppression strategy for the Soberanes Fire is full suppression with direct and indirect attack methods within the Life First Doctrinal Guidelines and Chief's Intent for 2016. To the extent possible, utilize existing or historic firelines for control purposes to minimize resource effects on wilderness. Provide for structure and community protection. A key element of the plan is flexibility and the ability to apply the right resource, to the right task, at the right time, for the right duration. It is understood fireline will be constructed only where it is feasible and safe to do so.

Leader's Expectations

- Provide the highest level of customer services to all involved with or impacted by the Soberanes Fire. All incident assigned personnel should be prepared to take the appropriate actions regarding:
  - Personal interactions both internal and external to the incident management organization
  - Personal safety and the safety of others
  - An incident-within-an-incident

Management Objectives:

- Provide for and maintain public and first responder safety by utilizing the incident safety analysis process.
- Protect all critical assets at risk to include the redwoods, historical assets, infrastructure and improvements, watersheds, and transmission lines.
- Utilize tactics that promote the protection of sensitive natural and cultural resources in the Ventana Wilderness.
- It is the Incident Commanders' Leaders Intent to ensure collaboration at all levels of the incident.
- Be financially responsible for all management and fire suppression tactics.
- Foster and enhance community and political relationships.
- All management actions and efforts will be focused on serving, safeguarding, and protecting the citizens and natural resources of Monterey County.

Control Objectives:

- Keep the fire inside the current perimeter in Branches I, II, and IX to protect infrastructure in the adjacent communities.
- Keep the fire north of the Nacimiento-Ferguson Road to limit fire growth to the south at the point of greatest opportunity.
- Keep the fire west of Carmel Valley and Reliz Canyon to avoid impacts to the communities along the Highway 101 corridor and Fort Hunter Liggett Military Reservation.
- Keep the fire east of Highway 1 to protect the visual corridor of this National Scenic Byway.

5. Incident Action Plan (the items checked below are included in this Incident Action Plan):

Soberanes Fire Weather Forecast

FORECAST NO: 34

NAME OF FIRE: Soberanes

PREDICTION FOR: 0700 Fri - 0700 Sat

UNIT: CA-BEU/LPF

SHIFT DATE: 8/26-8/27

SIGNED: Joe Goudsward

TIME AND DATE FORECAST ISSUED: 2000 8/25/2016

Incident Meteorologist

WEATHER DISCUSSION: An upper level low will remain over the region through the period keeping a deep marine layer locked in over the area. The overall winds will remain light and generally from the southwest along the ridges while terrain driven winds will dominate along the slopes and in the valleys. Southerly transport winds remain weak for overall poor smoke dispersion with the smoke lingering underneath the inversion. Onshore flow will keep temperatures a little cooler and humidity slightly higher than what was experienced yesterday but overall it will remain warm and dry above the marine layer and cooler and moister beneath it. Humidity values may be at their lowest early in the day and rise as the day progresses. For tonight the main concern will once again be low humidity readings during the overnight hours.

WEATHER FORECAST FOR FRIDAY:

WEATHER: Morning fog and possible drizzle. Low clouds until early afternoon below 2000 feet. Otherwise, clear skies with area of smoke.

TEMPERATURES: 80-88 interior/ridges…70-79 lower slopes… 62-68 along Hwy 1. **24 HR Trend** (down 1 to 3)

HUMIDITY: 20-30% interior above 2000 feet. 52-63% coast. **24 HR Trend** (up 1 to 2%)

20 FT WINDS:

RIDGETOP - Light winds becoming Southwest during the afternoon at 5-10 mph. Gusts to 12-15 mph above Hwy 1.

SLOPE/VALLEY - Downslope/downcanyon 2-4 mph in the morning becoming upcanyon/upslope 4-8 mph with gusts 12 mph.

Marine Layer: Around 2000 feet.

WEATHER FORECAST FOR FRIDAY NIGHT:

WEATHER: Becoming mostly cloudy along the coast and below 2000 feet with areas of fog and possible drizzle. Clear with smoke over interior portions of the fire above 2000 feet.

TEMPERATURES: 65-73 above 2000 feet. 52-59 in the marine layer.

HUMIDITY: Full recovery below 2000 feet 90-100%...20-30% above 2000 feet and locally 12 to 15% after midnight.

20 FT WINDS:

RIDGETOP – Southwest 5-10 mph gusts 15 mph early becoming 2-5 mph overnight.

SLOPE/VALLEY – Evening upcanyon 4-7 mph…becoming downcanyon 1-3 mph overnight.

Marine Layer: Around 2200 feet.

Extended Forecast: Little overall change is expected in the weather pattern through Saturday with the upper low remaining over the region and a 2200 foot marine layer in place. General winds will remain from the Southwest 5-10 mph. Highs 80-90 above the inversion with 70s lower elevations. Humidity values 18-28% above the inversion both night and morning with full recovery lower slopes below the marine inversion. Warming trend Sunday and Monday.

INPUTS

WEATHER SUMMARY **Slightly Cooler/Wind shifts to the South West**

Temps: Highs 80-88 interior, 70-79 on lower slopes and 62-68 along the coast. Lows 65-73 above the marine layer.
RH: Above 2000' 20-30% coast 52-63% Night: 20-30% above 2000', 90-100% below 2000'
Winds: Ridges SW 5-10mph Gusts 12-15mph. Interior slope winds upslope 4-8mph day and downslope 1-3 mph at night

ERC 48 (down 26) BI 91 (down 49) Pig 80% Rates of spread head fire in brush 60-80cph Spotting out to 1/2mile

OUTPUTS

FIRE BEHAVIOR

GENERAL

All classes of fuels are critically dry. Heavier fuels at the bottom of moist drainages will slow the progression of the fire into and across creeks. The fire is now burning primarily in a mix of brush and an oak understory burned in the 2008 Basin Fire. Snags, skeleton brush and heavy downed fuels are abundant and will increase the fire line intensity. Aspect is playing an active role in fire behavior. We are seeing more intense and complete consumption of fuels on the South and Western aspects. North and East aspects are burning as a mosaic and thus have potential for reburn.

Expect the fire behavior to moderate with the cooler temps and higher humidity. Smoke from Chimney fire may reach and shade open lines. SW flow at ridges should slow movement to the south, now mainly as backing and flanking fire. There will be some interior head fire runs in aligned drainages, especially where SW flow scours smoke along open line. None of these runs will impact existing containment lines. 10 -20' flame lengths in brush fuels should be expected when winds on south and west slopes produce head fire runs. No active fire behavior is expected below the marine layer and higher overnight RH recoveries above it will slow active fire spread at night.

SPECIFIC

BRANCH I, II, IX

No forward fire progression is expected.

BRANCH III, IV, V

The fire has stalled on Miller Mt, but isolated smokes would have alignments along the saddle ridge to the north. Fire will continue to slowly progress towards LP Reservoir from Buckskin Flat Camp.

Fire activity increased in the unburned area NE of Double Cone with SW winds. There is the potential for the fire to hook below Miller and impact Pine Valley. Fire is within ½ mile of the English Cabin in Pine Valley, though backing spread under smokey conditions will be slow.

Flanking fire will continue along north to south in aligned drainages but the fire is not expected to impact containment lines during this forecast period.

Branch VII, VIII

DIV O/P – In patrol status. No forward fire progression expected.

DIV N – Fire progression is not expected to challenge control lines. Interior islands will continue to burn out. Monitor for rollout and re-burn potential.

DIV ZZ – The fire has backed away from logwood ridge and is well established in the confluence of South Fork and North Fork of Big Sur river drainage. The fire will continue to flank around Olmstead Mountain, back into the South Fork and make short uphill runs back toward Logwood ridge. Once established on the south side of the South Fork uphill runs will take the fire further to the interior.

AIR OPERATIONS

Expect the marine layer to lift by late morning. Smoke may linger in the interior again.

SAFETY

Lingering smoke will reduce visibility along open lines. Be alert for alignments from fire below staffed positions. Incomplete burns means there is a high potential for reburn.

6. Control Operations/Work Assignments:

Task: complete suppression rehab per rehab guidelines.
Purpose: Repair suppression damage and minimize potential for negative post fire effects.
End State: Resources, lands, and facilities in this geographic area which have been damaged by fire management activities have been returned to pre-management condition to the extent practical.

7. Special Instructions:

Resources dispatched to a division from staging are required to receive a briefing specific to their assignment.
The Communications Plan is complex; please review the ICS 205 with all division personnel.
LOOK UP. Be aware of hazard trees.
DIVS, TFL, and HEQB must account for and certify all hired equipment shift tickets during the operational period.
Division Supervisors: Please report to Fire Apportionment to validate the previous day's ICS-204s.

6. Control Operations/Work Assignments:

Task: scatter topsoil, roll berms and establish "drivable" water bars on contingency line
Purpose: Repair some suppression damage and minimize potential for negative post fire effects while ensuring effectiveness of contingency line is not compromised.
End State: Contingency lines along the East side of the fire are still able to be utilized for fire suppression and all appropriate actions to prevent further damage.

7. Special Instructions:

Division Supervisors: Please report to Fire Apportionment to validate the previous day's ICS-204s.

FOBS (T) O-10381	09/06	ASHCRAFT, JOHN	1	DP 36/0700	DP 36/1900

6. Control Operations/Work Assignments:

TASK: Monitor Fire Activity and Develop Strategy/MAPs that identify a high probability of success for holding line.
PURPOSE: To ensure a coordinated firing action occurs if fire threatens line.
ENDSTATE: A plan and MAP is created that allows for adequate time to staff appropriately to conduct a successful firing operation.

7. Special Instructions:

The Communications Plan is complex; please review the ICS 205 with all Division personnel.
DIVS, TFL, and HEQB must account for & certify all hired equipment shift tickets during the operational period.
Division Supervisors: Please report to Fire Apportionment to validate the previous day's ICS-204s.

Prepared By (Communications Unit)

Kevin Harper/Clay Flad(COML)

Incident Location

5 MILES SOUTH OF CARMEL, GARRAPATA STATE PARK, MONTEREY CALIFORNIA

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Air Guard must be in the last channel of every plan (168.6250, PL 110.9 on TX only) Once 205 is complete, email it to com205@fire.ca.gov or fax to the local ECC and ask them to email it for you.

HEALTH AND SAFETY MESSAGE

SAFETY starts with ***YOU***

We are **ALL** accountable for **SAFE** behaviors

For: August 26, 2016

INCIDENT: **Soberanes Fire**	DATE: August 25, 2016, 2016 TIME: 1900

Major Hazards and Risks:

- **DRIVING: Use caution around Highway and secondary roads.**
- **TRANSITION: know your assignment and supervisor**
- **HIKING: Steep slopes, treacherous footing – assess risk**
- **HAZARD TREES: both live and dead trees can be a hazard**

Defensive Driving

- **Remember the basics!!!**
  - *** Lights on…..seat belts….**
  - *** Honk horn and use spotter when backing**
- **Don't be distracted……**
  - *** don't talk on radio or cell phone when driving**
- **Park off the main roads to let the public through**

HAZARD TREE SAFETY

Hazard Tree Indicators:

- **Trees that have burned**
- **Shallow tree root systems**
- **Dead & broken top trees**
- **Leaning or hung up trees**

Check IRPG, page 80 & 81

Remember to Maintain

Situational Awareness

throughout the Incident.

S.A.-The perception of environmental elements with respect to time and space, and the projection of their status after some variable has changed.

Thanks from your Safety Team!!

Special Medical Emergency Procedures For Fire Line and Camps:

In-Camp Care	Fire Line Emergencies
Minor Injuries or Illnesses	**Announce "Medical Emergency" on Command Channel.**
• Seek Aid directly at the ICP Medical Unit	• **Identify on Scene Command**
• Unit Open 0600 hrs to 2200 hrs	• **Notify Division Supervisor**
Moderate to Severe Injuries or Illnesses	• **Give your unit name and advise what EMTs are on scene.**
• Contact Communications or Med Unit directly	• **Give your location and if possible Lat/ Log**
Med Unit staffed after hours for Emergencies	• **Give the nature of the medical problem**
Workers Comp @ ICP Medical Reporting & Prescription	• **Give Number of Injured and Severity**
Refills 0900 hrs to 2000 hrs	• **Request line Medic Response.**
MEDL Available by phone Chuck Passek (907)3825824	• **Move the tactical operations to CALCORD Ch 15**
MEDL-t Available by phone Eric Ulwelling (831)402-8957	**Request type of evacuation resources needed:**
	• **Ground Support, Ambulance or REM**
Emergency Pre-planning	**Air Evacuations information needed:**
Start of shift: Notify your DIVS of EMT's and equipment	• **Lat / Long, Ground Contact, Describe the terrain, elevation, and temperature**
you have available for response, if needed.

Human Resource Message

August 26, 2016

Situational Awareness

Andrea Cabida and Sue Warren will be the HRSP starting today. Linda Overton will still be here as the HRSP Trainee until Saturday August 27, 2016.

Situational awareness is a very important skillset! It is also an invaluable tool to enforce and provide to your team. It promotes safety as well as leadership and team work. Working together, watching out for each other, continuing to make sure we come home together is the common goal. Thank you for an amazing work ethic and for adding value to the mission!

"Paying attention and awareness are universal capacities of human beings."
Jon Kabat-Zinn

ACTIVITY LOG (ICS 214)

1. Incident Name:	2. Operational Period: Date From: Time From:	Date To: Time To:

3. Name:	4. ICS Position:	5. Home Agency (and Unit):

6. Resources Assigned:

Name	ICS Position	Home Agency (and Unit)

7. Activity Log:

Date/Time	Notable Activities

8. Prepared by: Name: _____ Position/Title: _____ Signature: _____

ICS 214, Page 1 Date/Time: _____

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

FOR ALL MEDICAL EMERGENCIES: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use items one through nine to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS/DISPATCH
Ex: "Communications, Div. Alpha. Stand-by for Priority Medical Incident Report." (If life threatening request designated frequency be cleared for emergency traffic.)

2. INCIDENT STATUS: *Provide incident summary and command structure.*

Nature of Injury/Illness		*Describe the injury (Ex: Broken leg with bleeding)*
Incident Name		*Geographic Name + "Medical" (Ex: Trout Meadow Medical)*
Incident Commander		*Name of IC*
Patient Care		*Name of Care Provider (Ex: EMT Smith)*

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient. This is only a brief, initial assessment. Provide additional patient info after completing this 9 Line Report.*

Number of Patients:	Male / Female	Age:	Weight:

Conscious? ☐ YES ☐**NO = MEDEVAC!**

Breathing? ☐ YES ☐ **NO = MEDEVAC!**

Mechanism of Injury: *What caused the injury?*	
Lat/Long (Datum WGS84) Ex: N 40° 42.45' x W 123° 03.24'	

4. SEVERITY OF EMERGENCY, TRANSPORT PRIORITY

SEVERITY	TRANSPORT PRIORITY
☐ **URGENT-RED Life threatening injury or illness.** *Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.*	Ambulance or MEDEVAC helicopter. Evacuation need is **IMMEDIATE.**
☐ **PRIORITY-YELLOW Serious Injury or illness.** *Ex: Significant trauma, not able to walk, 2° – 3° burns not more than 1-2 palm sizes.*	Ambulance or consider air transport if at remote location. Evacuation may be **DELAYED.**
☐ **ROUTINE-GREEN** Not a life threatening injury or illness. *Ex: Sprains, strains, minor heat-related illness.*	Non-Emergency. Evacuation considered **Routine of Convenience.**

5. TRANSPORT PLAN:

Air Transport: (Agency Aircraft Preferred)

☐ Helispot	☐ Short-haul/Hoist	☐ Life Flight	☐ Other

Ground Transport:

☐ Self-Extract	☐ Carry-Out	☐ Ambulance	☐ Other

6. ADDITIONAL RESOURCE/EQUIPMENT NEEDS:

☐ Paramedic/EMT(s)	☐ Crew(s)	☐ SKED/Backboard/C-Collar
☐ Burn Sheet(s)	☐ Oxygen	☐ Trauma Bag
☐ Medication(s)	☐ IV/Fluid(s)	☐ Cardiac Monitor/AED

☐ Other (i.e. splints, rope rescue, wheeled litter)

7. COMMUNICATIONS:

Function	Channel Name/Number	Receive (Rx)	Tone/NAC *	Transmit (Tx)	Tone/NAC *
Ex: Command	*Forest Rpt, Ch. 2*	*168.3250*	*110.9*	*171.4325*	*110.9*
COMMAND					
AIR-TO-GRND					
TACTICAL					

*(NAC for digital radio system)

8. EVACUATION LOCATION:

Lat/Long (Datum WGS84) *EX: N 40 42.45' x W 123 03.24'*	
Patient's ETA to Evacuation Location:	
Helispot/Extraction Size and Hazards:	

9. CONTINGENCY:

Considerations: ***If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead...***

REMEMBER: **Confirm ETA's of resources ordered**
Act according to your level of training
Be Alert. Keep Calm. Think Clearly. Act Decisively.
