2018 IA Pre-Position
Columbine Resources
Incident Action Plan

MONDAY & TUESDAY

6/18 & 19/2018

0700-2000

Camp Quiet Hours 2200-0600

P2EK4R (0213)

INCIDENT OBJECTIVES	1. Incident Name 2018 IA Pre-Position	2. Date 06/18 & 19/2018	3. Time 0700-2000

4. Operational Period

5. General Control Objectives for the Incident (include alternatives)

-Maintain firefighter and public safety as the primary incident objective throughout all phases of incident implementation.
-Provide efficient organized initial attack response to wildfires.
-Provide a presence on the forest to the public, help when needed with guidance on forest restrictions.
-Support Incident 416 with structure protection as requested or able.
-Values: Be careful, deliberate and patient
Duty, Respect and Integrity
Provide a harassment free and inclusive work environment for all
-Task: Initial attack/patrol/prevention
Purpose: Reduce potential wildfire on the landscape
End-state: minimal to zero ignitions and/or acres burned

6. Weather Forecast for Period

Fire Weather Forecast will be printed morning of briefing and will be separate from the IAP

7. General Safety Message

REMEMBER your LCES.

Be aware of traffic, animals, and bicyclists—drive defensively.

8. Attachments (mark if attached)

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*
Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	☐ **RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE** *Ex: Unconscious, difficulty breathing, bleeding severely, 2º – 3º burns more than 4 palm sizes, heat stroke, disoriented.* ☐ **YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.** *Ex: Significant trauma, unable to walk, 2º – 3º burns not more than 1-3 palm sizes.* ☐ **GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport** *Ex: Sprains, strains, minor heat-related illness.*	
Nature of Injury or Illness & Mechanism of Injury		*Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)*
Transport Request		*Air Ambulance / Short Haul/Hoist Ground Ambulance / Other*
Patient Location		*Descriptive Location & Lat. / Long. (WGS84)*
Incident Name		*Geographic Name + "Medical" (Ex: Trout Meadow Medical)*
On-Scene Incident Commander		*Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)*
Patient Care		*Name of Care Provider (Ex: EMT Smith)*

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (*if different*): (*Descriptive Location (drop point, intersection, etc.) or Lat. / Long.*) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: ***Considerations:*** ***If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.***

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Trauma Assessment Categories

Level One	
Immediate lifesaving intervention required	Examples- Unstable airway, severe facial trauma with compromised airway, facial burns, suspected head injury with LOC > 5 min, positive MOI for spinal cord injury, cardiac injury, open chest wound, flail chest, pelvic trauma, multiple long bone fractures, penetrating trauma to the head/neck/ face, electrical injury, greater than 20% surface area burn combined with any other injury, multi system trauma, arterial bleeding, massive crush injury. Vitals –Systolic BP<100 (No peripheral pulse) or cardiac arrest, GCS< 8

Level Two	
Significant Injury with high risk of needing lifesaving intervention	Examples-Facial trauma with NO airway compromise, pelvic fractures with no shock, suspected pelvic fracture, multiple long bone fractures with no shock, known solid organ injury, amputation of distal extremities, open fractures, penetrating trauma with no arterial bleeding and stable vital signs, falls less than body height, GCS 9-13 with LOC< 5min

Level Three	
Patient with moderate risk of needing lifesaving intervention	Examples- Dehydration, possible bone fractures, heat related illnesses , abdominal pain, immobilized with no significant injury, LOC < 5 min, GCS 14-15, superficial soft tissue trauma

Level Four	
Patient with low risk of needing lifesaving intervention	Examples -General cold, minor lacerations, sprains, strains, flu like symptoms, severe blisters, poison ivy reaction, rash.

Level Five	
Patient with no risk of needing lifesaving intervention	Examples -Nuisance aches and pains, minor blisters, minor sunburns.

Patient Transport Categories

Level One	
Immediate lifesaving intervention required	Automatic launch-Flight for Life + Hoist Helicopter +Emergeny Ground Response. RESPONSE CONTINUED UNTIL PATIENT TRANSPORTED

Level Two	
Significant Injury with high risk of needing lifesaving intervention	Automatic launch-Flight for Life + Emergency Ground Response Standby Hoist Helicopter RESPONSE CONTINUED UNTIL PATIENT TRANSPORTED

Level Three	
Patient with moderate risk of needing lifesaving intervention	Automatic launch -Emergency Ground Response Automatic Airborne Standby -Flight for life RESPONSE CONTINUED UNTIL PATIENT TRANSPORTED

Level Four	
Patient with low risk of needing lifesaving intervention	Automatic launch-NON emergency Ground Response Automatic Ground Standby-Flight for life

Level Five	
Patient with no risk of needing lifesaving intervention	Agency/Crew/Engine/Safety Officer Transport

Talking Points - 6/12/18
San Juan National Forest Closure

- As of June 12, 2018, the San Juan National Forest (SJNF) has implemented a Stage 3 Fire Closure Order No. SJ-2018-09 for all National Forest System lands with the San Juan National Forest in the following counties: Archuleta, Conejos, Dolores, Hinsdale, La Plata Mineral, Montezuma, Rio Grande, and San Juan.

    - ✓ The closure prohibits most entry into the forest. Exemptions might be granted on a case-by-case basis with a written authorization from the Forest Service, which would include specific requirements for fire prevention.

    - ✓ The closure order will remain in effect until the forest receives sufficient moisture to improve conditions.

    - ✓ The closure order prohibits entry into the San Juan National Forest, including entry by the general public, most administrative entry by Forest Service employees, and most uses authorized under Forest Service permits and contracts. This means that forest campgrounds, day use areas, roads, and trails will be closed, including wilderness areas, and that hiking, dispersed camping, and other recreational activities are prohibited.

    - ✓ Violating Stage 3 fire restrictions is punishable as a Class B misdemeanor by a fine of not more than $5,000 for an individual or $10,000 for a legal entity other than an individual, or imprisonment for not more than six months, or both.

    - ✓ People or groups responsible for causing a wildfire could be held liable for suppression costs, which can become extensive once firefighters and heavy equipment are needed.

    - ✓ The Colorado Trail is closed within the San Juan NF between mile 820 and mile 945.9. For more information, go to the Continental Divide website at continentaldividetrail.org

- Open areas:
    - McPhee Recreation Area Complex boat ramp and marina for the purposes of launching or retrieving watercraft and who are on the water of the McPhee Reservoir at least 10 feet from the shoreline.
    - Through traffic only on the following roads:
        - Dolores-Norwood Road
        - Piedra Road will remain open as far as the Sportsman
        - County roads and highways are not closed by the Forest Order (La Plata Canyon Road is a county road).
        - US Basin
        - Ophir Pass

For more information about San Juan National Forest Closure, please call:

- ✓ San Juan National Forest Supervisor's Office (970) 247-4874
- ✓ Dolores Ranger District (970) 882-7296
- ✓ Columbine Ranger District (970) 884-2512
- ✓ Pagosa Ranger District (970) 264-2268

To report a fire on federal lands, please contact the Durango Interagency Fire Dispatch Center at (970) 385-1324.

ACTIVITY LOG (ICS 214)

1. Incident Name:	2. Operational Period:	
2018 IA Pre-positon	Date From: 6/8/18	Date To: TBD
	Time From: 0700	Time To: 2000

3. Name:	4. ICS Position:	5. Home Agency (and Unit):

6. Resources Assigned:
