

Tanana Area Fires AK-TAD-000898 Spicer Creek Operations Map July 26, 2015 1:24000

Spicer Fire Management Action Points (MAP's) 7-25-2015

These Management Action Points are established in conjunction with the Tanana Village Structure Protection Plan established June 23, 2015, and modified 7/1/2015 and 7/25/15.

When fire behavior becomes extreme and threatens structures in the Village of Tanana, along Site Rd and the Mission Ridge Rd, consider and evaluate tactical actions needed to prevent property loss and provide public safety. Line Operations will contact Planning Operations and IC immediately when MAP's have been reached and any actions will come down through the chain of command. IC or designated representative will notify Village Public Safety Officer of specific management action points that have been reached so VPSO can advise Tanana residents of our actions for their appropriate action. IC/ OPS will advise PIO & LOFR of actions, so public service announcements can be released.

Contact the Tanana Power Co. at 907-366-1190 before any fire operations, imminent impacts from the fire and locations for possible de-charging of specific lines for safety.

Management Action Point # 1

- If fire establishes beyond any of these points and fire behavior indicates additional growth; Evaluate the need to implement the Structure Protection Plan in Tanana and along Site Rd and Mission Ridge. Water handling systems will be charged and maintained until fire threat to structures has passed. Consider the need to implement by severity of Fire Behavior threat.
- Consider using aerial support including Air Tankers /Scoopers if conditions allow for safe and effect utilization of that resource.
- Start firing around structures systematically to provide for Public Safety and structure protection. If Extreme Fire Behavior becomes established, pumps will be fueled and left to run. Crews will pull back to the pre-established safety zone and wait until it is safe to return to the structures. Once fire front subsides, crews will reengage in structure protection.

Legend

	Uncontrolled Fire Edge		Bear Creek Group
	Completed Dozer Line		Harper Bend Group
	Completed Line		Mission Group
	Hand Line		Site Group
	R-R Road as Completed Line		Tanana Group
	Escape Route		Tundra Group
	River/Creek		Upper Yukon Group
	Trail		Old Burn Area
	Under Construction		Native Allotment
	Roads		Lake, River
	Management Action Plan
