**DAY / NIGHT SHIFT**

**AUGUST 26, 2014 0600 - 1800**  
**AUGUST 26-27, 2014 1800-0600**

<b>Incident Objectives</b>	1. Incident Name HAPPY CAMP COMPLEX	2. Date Prepared 08/25/14	3. Time Prepared 0741
4. Operational Period 08/26/14 – 08/27/14 Tuesday – Wednesday 0600 - 0600			
5. General Control Objectives for the incident (include alternatives)  <b>Firefighter and public safety is our core value. All identified hazards will be mitigated or avoided.</b>  <b>MANAGEMENT OBJECTIVES:</b> 1. Manage costs commensurate with values at risk. 2. Minimize damage to natural and cultural resources caused by fire suppression actions.  <b>CONTROL OBJECTIVES:</b> 1. Provide Structure Defense within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District and along Scott River. 2. Manage and coordinate all new fires within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District. 3. Manage all fires under a full suppression strategy.			
6. Weather Forecast for Period  SEE ATTACHED FORECAST			
7. General Safety Message  SEE ATTACHED SAFETY MESSAGE

# Happy Camp Complex Weather Forecast

FORECAST NO: 13 D/N  
 PREDICTION FOR: Tuesday Day/Night Shift  
 SHIFT DATE: August 26-27, 2014  
 FORECAST ISSUED: 1900 August 25, 2014

NAME OF FIRE: Happy Camp Complex  
 UNIT: KNF / SoCal 3  
 Incident Meteorologist: Jeff Tonkin

**WEATHER DISCUSSION:** A ridge of high pressure will gradually shift eastward and reside over the fire area on Wednesday and Thursday. This will bring continued warming and drying through Thursday...along with brief periods of gusty east and northeast winds along highest elevations during the late night and early morning hours. Elevated inversions and thermal belts are likely to strengthen Wednesday and Thursday...breaking late in the afternoon.

**WEATHER FORECAST FOR TODAY (TUESDAY DAY SHIFT):**

**WEATHER:** Smoke...inversions breaking around 1300 PDT on East Perimeter... 1500 West side.  
**MAX TEMPERATURES:** Valleys (1,200 ft) 97 – 101 F, Ridges (4,000 ft) 83 – 88 F  
**MIN HUMIDITY:** Valleys (1,200 ft) 11 – 16%, Ridges (4,000 ft) 14 – 19%  
**WINDS (EYE LEVEL):**  
 Drainages – Up slope / up valley 2 – 4 mph.  
 Ridges – East and northeast 3 – 7 mph until 1000 PDT...then becoming north and northeast 4 to 7 mph through 2200 PDT.

**LAL: 1 CWR: 0% HAINES: 3-4**

**STABILITY / INVERSION:** Multiple Inversions lifting between 1400 and 1600 PDT.

**SMOKE TRANSPORT:** North-Northeast 5-10 mph.

**WEATHER FORECAST FOR TONIGHT (TUESDAY NIGHT SHIFT):**

**WEATHER:** Mostly clear but abundant smoke.  
**MIN TEMPERATURES:** 57 – 63 F  
**MAX HUMIDITY:** Valleys (1,200 ft) 60 – 70%F, Ridges (4,000 ft) 45 – 50%  
**WINDS (EYE LEVEL):** Valleys – NE or down slope / down valley 0 – 3 mph  
 Ridges – NE 3 – 6 mph gusts 10 mph.

**LAL: 1 CWR: 0% HAINES: 3-4**

**STABILITY / INVERSION:** Multiple Inversions lifting between 1400 and 1600 PDT.

**SMOKE TRANSPORT:** North-Northeast 5-10 mph.

**OUTLOOK FOR WEDNESDAY (4500 FT):** Partly Cloudy with abundant smoke. Max Temps: 88 to 92. Min RH: 13 - 17%. Ridge Wind: East and Northeast 3 – 5 mph gusts 7 – 10 mph. LAL 1. CWR 0%. Haines 3.

**THREE DAY EXTENDED DAYTIME (THURSDAY – SATURDAY 4500 FT)**

	<u>Max T</u>	<u>Min RH</u>	<u>Max RH</u>	<u>Ridge Winds</u>	<u>LAL</u>	<u>WX</u>
THU	88 – 92	21%	65%	W/SW 4 - 6 G 12 mph	1	SMK
FRI	84 – 89	25%	60%	W/SW 4 - 6 G 12 mph	1	SMK
SAT	84 – 89	30%	60%	W 8 – 12 mph G20 mph	1	SMK

**Observations from Monday Afternoon:**

	<u>Max Temp</u>	<u>Min RH</u>	<u>Wind Dir</u>	<u>Wind Spd</u>	<u>WX</u>
Happy Camp (1,161 ft)	96	16%	W	3 mph gust 10	SMOKE
Dutch – Indy (2,281 ft)	88	19%	NW	5 mph gust 10	
Grider Ridge (4,621 ft)	79	22%	NE	3 mph gust 8	SMOKE

6

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER: 022</b>	<b>TYPE OF FIRE: Wildfire</b>
<b>FIRE NAME: Happy Camp Complex</b>	<b>OPERATIONAL PERIOD: 8/26/14 0600 to 8/27/14 0600</b>
<b>DATE ISSUED: 8/25/14</b>	<b>TIME ISSUED: 2000 hrs</b>
<b>UNIT: Klamath National Forest</b>	<b>SIGNED: FBAN,</b> 

### INPUTS

#### WEATHER SUMMARY:

See Weather Forecast for specific information

Sky: Mostly Sunny...Smoke clearing between 1300-1500 ... Temps Max 95° Min 59°...RH Min 11-14% Max 50%

Daytime Winds...Valley: up slope/up valley 2-4 mph...Ridge: NE 4-7mph

Nighttime Winds...Valley: down slope/valley 0-3mph...Ridge: NE 3-6 G10

LAL 1... Haines 3...Inversion lifting between 1300-1500 setting back in at midnight

### OUTPUTS

#### GENERAL FIRE BEHAVIOR:

High pressure has is creating stable conditions and we should see minimal wind influence. Backing and roll-out under the inversion will position heat into the bottom of drainages. Expect to see a noticeable difference in those areas when the inversions lift.

**Local threshold for large growth:** 20' winds over 4 mph, RH less than 40%, Temps over 75\*, 1000 hr FM less than 13% (refer to Pocket Card in IAP).

Scattered Tree Mortality is under 5%.

Spotting potential is high during the peak of the day(PIG >85%) and low for night operations(PIG <20%)

### SPECIFIC

#### All Divisions:

The potential for single/group tree torching and short range spotting will remain a threat due to ladder fuels. Roll-out of burning material remains a high concern and is a main factor in fire growth..

**Frying Pan Fire:** The fire will continue to work its way to the east. When the inversion breaks, expect unburned pockets to continue burning up to Grider Ridge. Slop-overs between the RAWS station and Hickleberry Mnt. will continue to back & roll-out towards Grider Creek.

**Div. F:** Fire will continue to work around China and Wolf Creeks and up to Grider Ridge.

**Div. T:** Heavy fuels will allow for persistent backing down to Elk Creek. Rolling materials and snags will pose a threat for the next several days.

**Div. O:** Pay attention to northerly winds which may be blowing across the line. Fuels within the Doolittle drainage will continue to burnout up to the established perimeter.

**Falkstein Fire:** No significant movement expected today. Fire will continue to back to the north and west. Fire progression will be mainly from roll-out and short range spotting. Fire is not expected to impact any of the indirect line construction during today's shift.

#### AIR OPERATIONS:

Light winds will allow for good flying conditions once the inversion breaks. Expect the southern portion of the fire to remain hampered by smoke throughout the day, especially in deep drainages.

### SAFETY

- Fire is now at the control lines in many areas. Fire weakened trees and rolling material will be a hazard in these areas.

### FIRE DANGER -- West Side KNF

Maximum, Average, and 43th Percentile, based on 12 years data

### Fire Danger Area:

- ◆ 200, 202, 204, 208
- ◆ CA230 & CA281
- ◆ See below
- \* Meets NWCG Wix Station Standards

### Fire Danger Interpretation:

EXTREME -- Use extreme caution  
 MODERATE -- Watch for change  
 Moderate -- Lower Potential, but always be aware

Maximum -- Highest Energy Release Component by day for 2000 - 2011

Average -- Shows peak fire season over 12 years (2204 observations)  
 43th Percentile -- Only 43% of the 2204 days from 2000 - 2011 had an Energy Release Component below 57

### Local Thresholds - Watch out:

Combinations of any of these factors can greatly increase fire behavior:  
 20+ Wind Speed over 4 mph, RH less than 40%,  
 Temperature over 75, 1000-Hour Fuel Moisture less than 13

### Years to Remember: 2008 2010

Fuel Model: G - Short-Needle (Heavy Dead)

### Remember what Fire Danger tells you:

- ✓ Energy Release Component gives seasonal trends calculated from 2 pm temperature, humidity, daily temperature & rh ranges, and precep duration.
- ✓ Wind is NOT part of ERC calculation.
- ✓ Watch local conditions and variations across the landscape -- Fuel, Weather, Topography.
- ✓ Listen to weather forecasts -- especially WIND.

### Past Experience:

Large fires (>50ac) occur more frequently when BI exceed 58. Fires 50 acres and larger can readily increase in complexity. Multiple lightning ignitions can overwhelm suppression resources. 2008 was an active fire year. 2010 was quiet.

Sawyers Bar, Somes Bar, Slater Butte, Blue Ridge, Oak Knoll, Slater Butte, Collins Baldy, Quartz Hill, Callahan #2, and Dutch-Indy RAWIS data was used.

Responsible Agency: Klamath National Forest  
 FF+4.1 Beta 11/082012-13:38 (F:\KNF\_period\_of\_record\_v25\wmt2)

## Major Hazards Which Have Been Encountered This Year in California resulting in an injury:

All of these common to normal operations in wildland land fires. Following our standard practices (LCES, Fire Orders and 18 Situations) hazards can be mitigated and are identified in the Risk Analysis.

- Danger Trees and Stump Holes
- Smoke Exposure
- Steep Rugged Terrain
- Heavy Equipment Use
- Fire Behavior
- Driving Incidents
- Wildlife Encounters
- Injuries to knees and Ankles
- Dehydration
- Briefings

### Mitigations could include:

- Review the IMet and FBAN forecasts.
- Hydration is always a continuing problem. Start watering up before the heat of the day, correct nutrition also helps prevent serious dehydration.
- Cumulative smoke exposure is a known health issue. When possible, avoid long periods of heavy smoke. Continued smoke exposure can cause impaired judgment and fatigue.
- Snags and green trees are fire weakened. It is important these be scouted out and mitigated or avoided.
- Stump holes have been the cause for serious injuries this year.
- Steep and rugged terrain requires safe travel practices and Situational Awareness of rolling material.
- Heavy Equipment Operations, again, require good Situational Awareness and following standard practices.
- Driving requires good sense on these narrow road systems, mitigations include avoidance.
- All firefighters deserve a quality briefing daily.
- Focus on the basics: LCES!

UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE BEHAVIOR

Prepared By (Communications Unit Leader)

MIKE HORST - COM1 (661) 645-4254 / KEVIN HARPER COM1(661) 330-0209

Incident Location: KLAMATH NATIONAL FOREST - HAPPY CAMP, CA  
Cnty: SISKIYOU

Latitude Longitude

To expedite processing, please avoid waiting until the day of demob to process a claim.

### CACHE ITEM CLAIMS

Individuals responsible for or assigned government property are responsible to document loss or damage on the Property Loss or Damage Report, OF-289. The individual, supervisor and a witness must document facts and circumstances on the form in order to gain approval to repair or replace damaged property.

The Supply Unit Leader (SPUL) or Incident Agency Representative approves replacement requests for expendable cache items. If this equipment or supply is not available at the incident AND the requesting resource is being demobilized, an OF-315 Incident Replacement Requisition is completed and signed by the SPUL. An "S" number will be assigned by the incident to be used by the home unit.

### NON CACHE ITEM CLAIMS

All non-cache items available through the cache (e.g. sleeping bags, tents, tools, sleeping pads) will be replaced with cache equivalent items. Replacement for normal wear and tear is through home unit project funds. Specialized equipment (non-cache and non-expendable) shall be documented on a resource order and must be appropriate to the incident position. For replacement with incident funds, the item must have been clearly damaged or destroyed on the incident.

The OF-289 will be used to request consideration for replacement or repair of these items. Once approved, the OF-289 will be used by the incident to issue an "S" number to be used by the home unit.

### CLAIMS PROCESSING

The incident agency will review all potential claims for accuracy and completeness and forward to the appropriate adjudicating official. This includes forwarding employee claims to the employee's home unit, if different than the incident agency.

## Human Resource Message What Makes Communication Difficult?

### *Words Mean Different Things to Different People*

Look up 500 different words in a dictionary and you will find over 2,500 meanings and/or definitions for those same words. To communicate effectively, both the speaker and the listener must have a mutual understanding of the words they use.

### *The Presenting Problem May Not Be the Major Concern*

People often are hesitant to talk about what is really bothering them. The “real issues” are what they tend to hide most carefully. Trying to solve minor problems while the real problems are not clearly understood does not work. Doing this is a major source of ineffectiveness.

### *Filters Distort What People Hear and Say and Emotions Are Blinding*

Our own expectations, experiences, values, biases, self-images, beliefs, ideas, worldview, etc. create a “zone of distortion”...the filter that distorts our interpretation of another person’s message. People are often unaware of how their emotions affect communications with others and emotions can literally put some people out of control and prevent them from communicating effectively.

### *Here’s what to do to improve communication:*

Stand in the other person’s shoes. You have stood in the other person’s shoes when you repeat their point of view back to their satisfaction.

### *Drop your point of view long enough to take another way of seeing things.*

Remember the point of communication is not to win or be right, but to either bring people together or clarify their differences.

"Stand by below ... lunch is imminent.  
I repeat ... LUNCH IS IMMINENT."

A wise person does not shout and  
scream when speaking, but talks  
gently with all people and never raises  
his voice unduly.

-Maimonides

Janine Summy, Zone 2 HRSP, 509-429-1206

Jan Cawthon, Zone 1 HRSP, 909-553-2829

## CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equity, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- Say "No" to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

# ATTENTION FEDERAL TRAINEE'S

**Are you going to be recommended for certification on this incident?**

**Or**

**Have you already been recommended for certification but still have your taskbook with you at this incident?**

Your FQRC needs your taskbook with all the proper documentation so they can review it and submit it to the certifying official.

**September 5** is the deadline for submitting applications to the R5 Fall Fire Hire

If you have worked hard all summer for an incident qualification that will get you to that next level, don't wait and miss your opportunity.

**Come by and see me and I will get your completed taskbook back to your FQRC.**
