Continue to patrol and mop up areas of concern by direct line construction, hose lays and/or mop up.						
8. Special Instructions						
For emergency communication for crews spiked out after 2200 to 0600 will be through Redding ECC.						
When working in the Wilderness, refer to MIST Guideline handout in IAP. In general, minimize activities that will leave long term visual impacts to the Wilderness. Strive to create a shaded fuelbreak appearance. Take your time, intentionally cut vegetation so stumps and stobs are low to the ground, and minimize the cutting of large trees that do not pose a hazard. Do not damage tree boles when pruning.

SAFETY MESSAGE

RIVER COMPLEX

SEPTEMBER 12, 2015

DRIVING- Be alert for children and pedestrians.

Slowing down is the best mitigation for numerous safety issues. Learn to recognize issues and pay attention to the warning signs of fatigue. Take a break if you experience wandering or disconnected thoughts, yawn repeatedly, have difficulty focusing or keeping your eyes open, or find yourself missing traffic signs or tailgating other drivers. **Use of seatbelts is mandatory. Be alert for trucks, civilian vehicles and wildlife on roads in all areas.**

HAZARDOUS WILDLIFE, INSECTS AND PLANTS: For bears, pick up and remove all trash from fire line. Don't allow storage of food in tents or vehicles.

Incidents of bee/yellow jacket stings/bites can be expected. Find out whom of your subordinates are allergic and if they carry epi-pens.

Try to avoid contact with poison oak when possible. Emphasize pre-treatment, change clothes frequently, take cool showers, and see medical unit for treatments.

HYDRATION: Encourage your crew to drink plenty of water before, during, and after every shift, up to one and a half gallons a day. Use sports drinks to replenish electrolytes.

TERRIAN: All new work areas need to be scouted for HAZARDS, prior to inserting crews. **Use 3 flags to identify hazard areas.**

FATIGUE: Be alert for signs of fatigue in your crew and have them take breaks as often as necessary. Make sure they are maintaining a 2:1 work/rest ratio. As we get deep into this fire season watch out for effects of cumulative fatigue. People may need more than 2 days off between 14-day assignments.

What is Wilderness?

- ➔ Wilderness with a capital 'W' is a law passed by congress in 1964.
Wilderness with a lower case 'w' is an experience.
- ➔ Wilderness is a place where you can go to feel that you are the first person to ever be there, or at least, the first person to be there in a long time.

What is a Resource Advisor (READ)?

READs are not out there to tell you how to fight fire. That's your job.
READs are out there to *suggest* strategies to minimize our footprint on the land.
