INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: BUTTE INCIDENT CA-AEU-024918	2. Operational Period: Date From: 09/22/2015 Time From: 0700 hours	Date To: 09/23/2015 Time To: 0700 hours
--	--	--

3. Objective(s):
Management Objectives

- Provide for public and emergency personnel safety at all times
- Provide for timely and accurate release of incident information to the public, media, first responders and cooperators
- Protect and defend structures and improvements in the fire area
- Protect natural and cultural resources in the fire area
- Provide a process to manage emergency resources efficiently
- Ensure costs are minimized appropriately for values at risk
- Ensure coordination and communication with stakeholders and cooperating agencies

Control Objectives

- Keep the fire:
 1. North of the Esmerelda Road
 2. South of Highway 88
 3. East of Highway 49
 4. West of the Stanislaus National Forest DPA boundry

4. General Weather Conditions:

SEE ATTACHED

General Situational Awareness and Safety:

- MAINTAIN L.C.E.S. AT ALL TIMES. Safety zones and escape routes are mandatory
- Ensure all personnel maintain situational awareness
- Rolling material and steep terrain. Remember to maintain good footing
- Keep your hydration up by drinking water and electrolyte beverages. Avoid energy drinks
- Maintain good communications with your supervisors, adjacent forces and crew members
- Guard against complacency.

5. Site Safety Plan Required? Yes No **Approved Site Safety Plan(s) Located at:**

6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

Butte Fire Weather Forecast

FORECAST NO: 11
PREDICTION FOR: DAY SHIFT – NIGHT SHIFT
SHIFT DATE: September 22, 2015
FORECAST ISSUED: September 21, 2015

NAME OF INCIDENT: Butte Fire
UNIT: Cal Fire Amador-El Dorado Unit
SIGNED: *Terry Lebo*
 Terry Lebo, Incident Meteorologist

WEATHER DISCUSSION:

High pressure over the area will gradually weaken today as a weak mid-level disturbance approaches from the northwest this afternoon. A slight increase in southwest flow is expected today with potential for wind gusts from the southwest around 16 mph. Southwest flow will gradually increase humidity in the area during the next few days.

FORECAST FOR TUESDAY:

Weather: Mostly sunny, 0% chance of rain
Max Temperature: Valley Bottom 87-92 Ridgetop 85-90
Minimum Humidity: Valley Bottom 20-25% Ridgetop 17-22%
20 ft Winds:
 Slopes/Valleys: Southwest to west 5 to 8 mph with gusts to 14 mph.
 Ridges: Southwest to west 7 to 10 mph with gusts to 18 mph.
Transport Winds: Southwest 14 mph.
LAL 1
Chance of Wetting Rain 0%

FORECAST FOR TONIGHT:

Weather: Mostly clear, 0% chance of rain
Max Temperature: Valley Bottom 59-64 Ridgetop 60-66
Minimum Humidity: Valley Bottom 25-30% Ridgetop 23-28%
20 ft Winds:
 Slopes/Valleys: Southeast 3 to 6 mph with gusts to 9 mph.
 Ridges: Southwest 5 to 8 mph with gusts to 14 mph.
Transport Winds: Southwest 15 mph.
LAL 1
Chance of Wetting Rain 0%

FORECAST FOR WEDNESDAY:

Weather: Mostly sunny, 0% chance of rain
Max Temperature: Valley Bottom 81-86 Ridgetop 77-82
Minimum Humidity: Valley Bottom 22-27% Ridgetop 18-23%
20 ft Winds:
 Slopes/Valleys: Southwest 4 to 7 mph with gusts to 12 mph.
 Ridges: Southwest 6 to 9 mph with gusts to 15 mph.
Transport Winds: Southwest 11 mph.
LAL 1
Chance of Wetting Rain 0%

Planning Forecast Matrix

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 12	TYPE OF FIRE: Wildfire
FIRE NAME: Butte	OPERATIONAL PERIOD: 9/22-23/15 0700-0700
DATE ISSUED: 9/21/15	TIME ISSUED: 1900
UNIT: AEU – Amador El Dorado Unit	SIGNED: 
	Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

The sky will be clear with high temperatures and low humidity again today. The temperature will be 87-92 degrees during the day and 59-66 degrees overnight. The humidity will be 17-25% during the day with a slight recovery to 23-30% overnight. Winds will be light from the southwest to west 5-8 mph with gust to 14 mph slopes/valleys and 7-10 mph with gusts to 18 mph on the ridges during the day. Overnight winds will be southeast 3-6 mph with gust to 9 mph in the valleys and slopes and ridge winds will be 5-8 mph with gusts to 14 mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

There was minimal to no humidity recovery the past 3 nights, keeping the light fuels at a low moisture level. The winds will increase tomorrow but it will bring in some moisture from the delta. This will help to lower the Probability of Ignition to 60-90%, depending on what aspect you area working on. The will increase the spotting distance, however unless there is column development the ember production and distance should be minimal. Continue to watch for smoldering material increasing in activity in the afternoon, especially in the interior islands.

CSR 7 Day Outlook

CNR 7 Day Outlook

SPECIFIC:

The Mokelumne River portion of the fire may start to see more leaf and needle litter on the surface as the winds increase, creating more smoldering material. Post lookouts to watch for increases in fire activity which could cause ember cast. The east and south side of the fire will continue to have smoldering in the islands of unburned fuels, which will become active in the late morning to afternoon. On the south side of the fire watch for rolling material in the steeper sections of the islands. The rolling material may increase the fire activity allowing for short range spotting along Fricot City Road. Pay attention to the masticators along the road, the equipment has the potential to start a new fire in the dry conditions. Any area that has an understory burn with standing brush the leaves will start falling and creating a new surface layer with cured fuels. These leaves and needles will readily ignite when in contact from an ember or smoldering fuels.

AIR OPERATIONS

There should be no issues for aircraft during the operational period.

SAFETY

The winds will be increasing, watch for ember cast as fire activity increases in the afternoon, especially in the interior islands.

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: BUTTE INCIDENT CA-AEU-024918	2. Operational Period: Date From: 09/22/2015 Date To: 09/23/2015 Time From: 0700 Time To: 0700
---	--

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

MAJOR HAZARDS/RISKS

DRIVING HAZARDS: Use defensive driving. **SLOW DOWN** in the field and in base camp. Beware of roadway and driving complacency.

REPOPULATION: Increased traffic flow in the fire area . Use emergency lights, flaggers, law enforcement officers to protect yourself..

DEHYDRATION : Drink water and sport drinks, Ensure personnel carry enough water for work shift. Monitor and support personnel needs.

TREE FELLING, UTILITY POLES, UTILITY LINES: **Assume all utilities are live.** Communicate with adjacent fire and utility personnel that are felling trees or utility poles. Maintain safe distances from falling hazards.

SLIPS, TRIPS, and FALLS: Beware of stump holes and ash pits. Plan your work and be aware of area hazards. Wear proper PPE for conditions at all times.

HAZARD TREES and SNAGS: Use caution when working around fire weakened and drought stressed trees. Share hazard information. Identify and flag hazard trees and snags with LIFE SAFETY FLAGGING.

DEMOBILIZATION: Travel safely to your home base or next assignment. Get proper rest and have a travel and communications plan. Ensure your equipment is accounted for and ready for inspection.

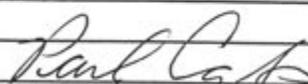

MASTICATORS, CHIPPERS, and other HEAVY EQUIPMENT: Maintain safe distances when working near Heavy Equipment. Beware of flying debris. Maintain communications with operators and personnel.

MINE SHAFTS and other MINING HAZARDS: Identify and flag mine shafts and other hazards. Beware of shafts hidden in brush and debris.

Incident Location
County Amador State-CA Latitude Longitude N Longitude W

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

CAL FIRE INCIDENT MANAGEMENT TEAM WATER USAGE PLAN

California Drought Emergency

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

Fireline personnel- (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

Road Maintenance and Repair-

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

Aviation Operations-

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

Private Water Supplies-

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

Public/ Municipal Water Supplies-

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

Management and Supervision-

- Use leaders intent and establish Water Conservation as an Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.

CAL FIRE INCIDENT MANAGEMENT TEAM 1

PHILL VENERIS – INCIDENT COMMANDER

DEMOBILIZATION PLAN - SUMMARY

Butte Incident
CA-AEU-024918

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours.

GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- DEMOB list will be posted around camp and also will be added to the CAL FIRE IMT 1 online folder. (Scan QR code to read DEMOB list or <http://calfire.box.com/calfireimt1>)
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled DEMOB time.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-800-237-3703 immediately upon being released from the incident.

RESPONSIBILITIES

Unit Leaders will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment.

RELEASE PRIORITIES

1. Organized fire departments
2. OES engines
3. Hired personnel and equipment
4. Other agencies (USFS, BLM, etc.)
5. Out of region Cal Fire forces
6. Within Region Cal Fire Forces
7. Unit CAL FIRE Forces

TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

TRAINING SPECIALIST MESSAGE

Please Be Proactive

Training will CLOSE on Wednesday at noon.
Please submit all material before then:

Bring your **COMPLETED** evaluation record, performance evaluation (ICS-225), qualification card and position task book. Please ensure **ALL FIELDS** are filled in on all paperwork.

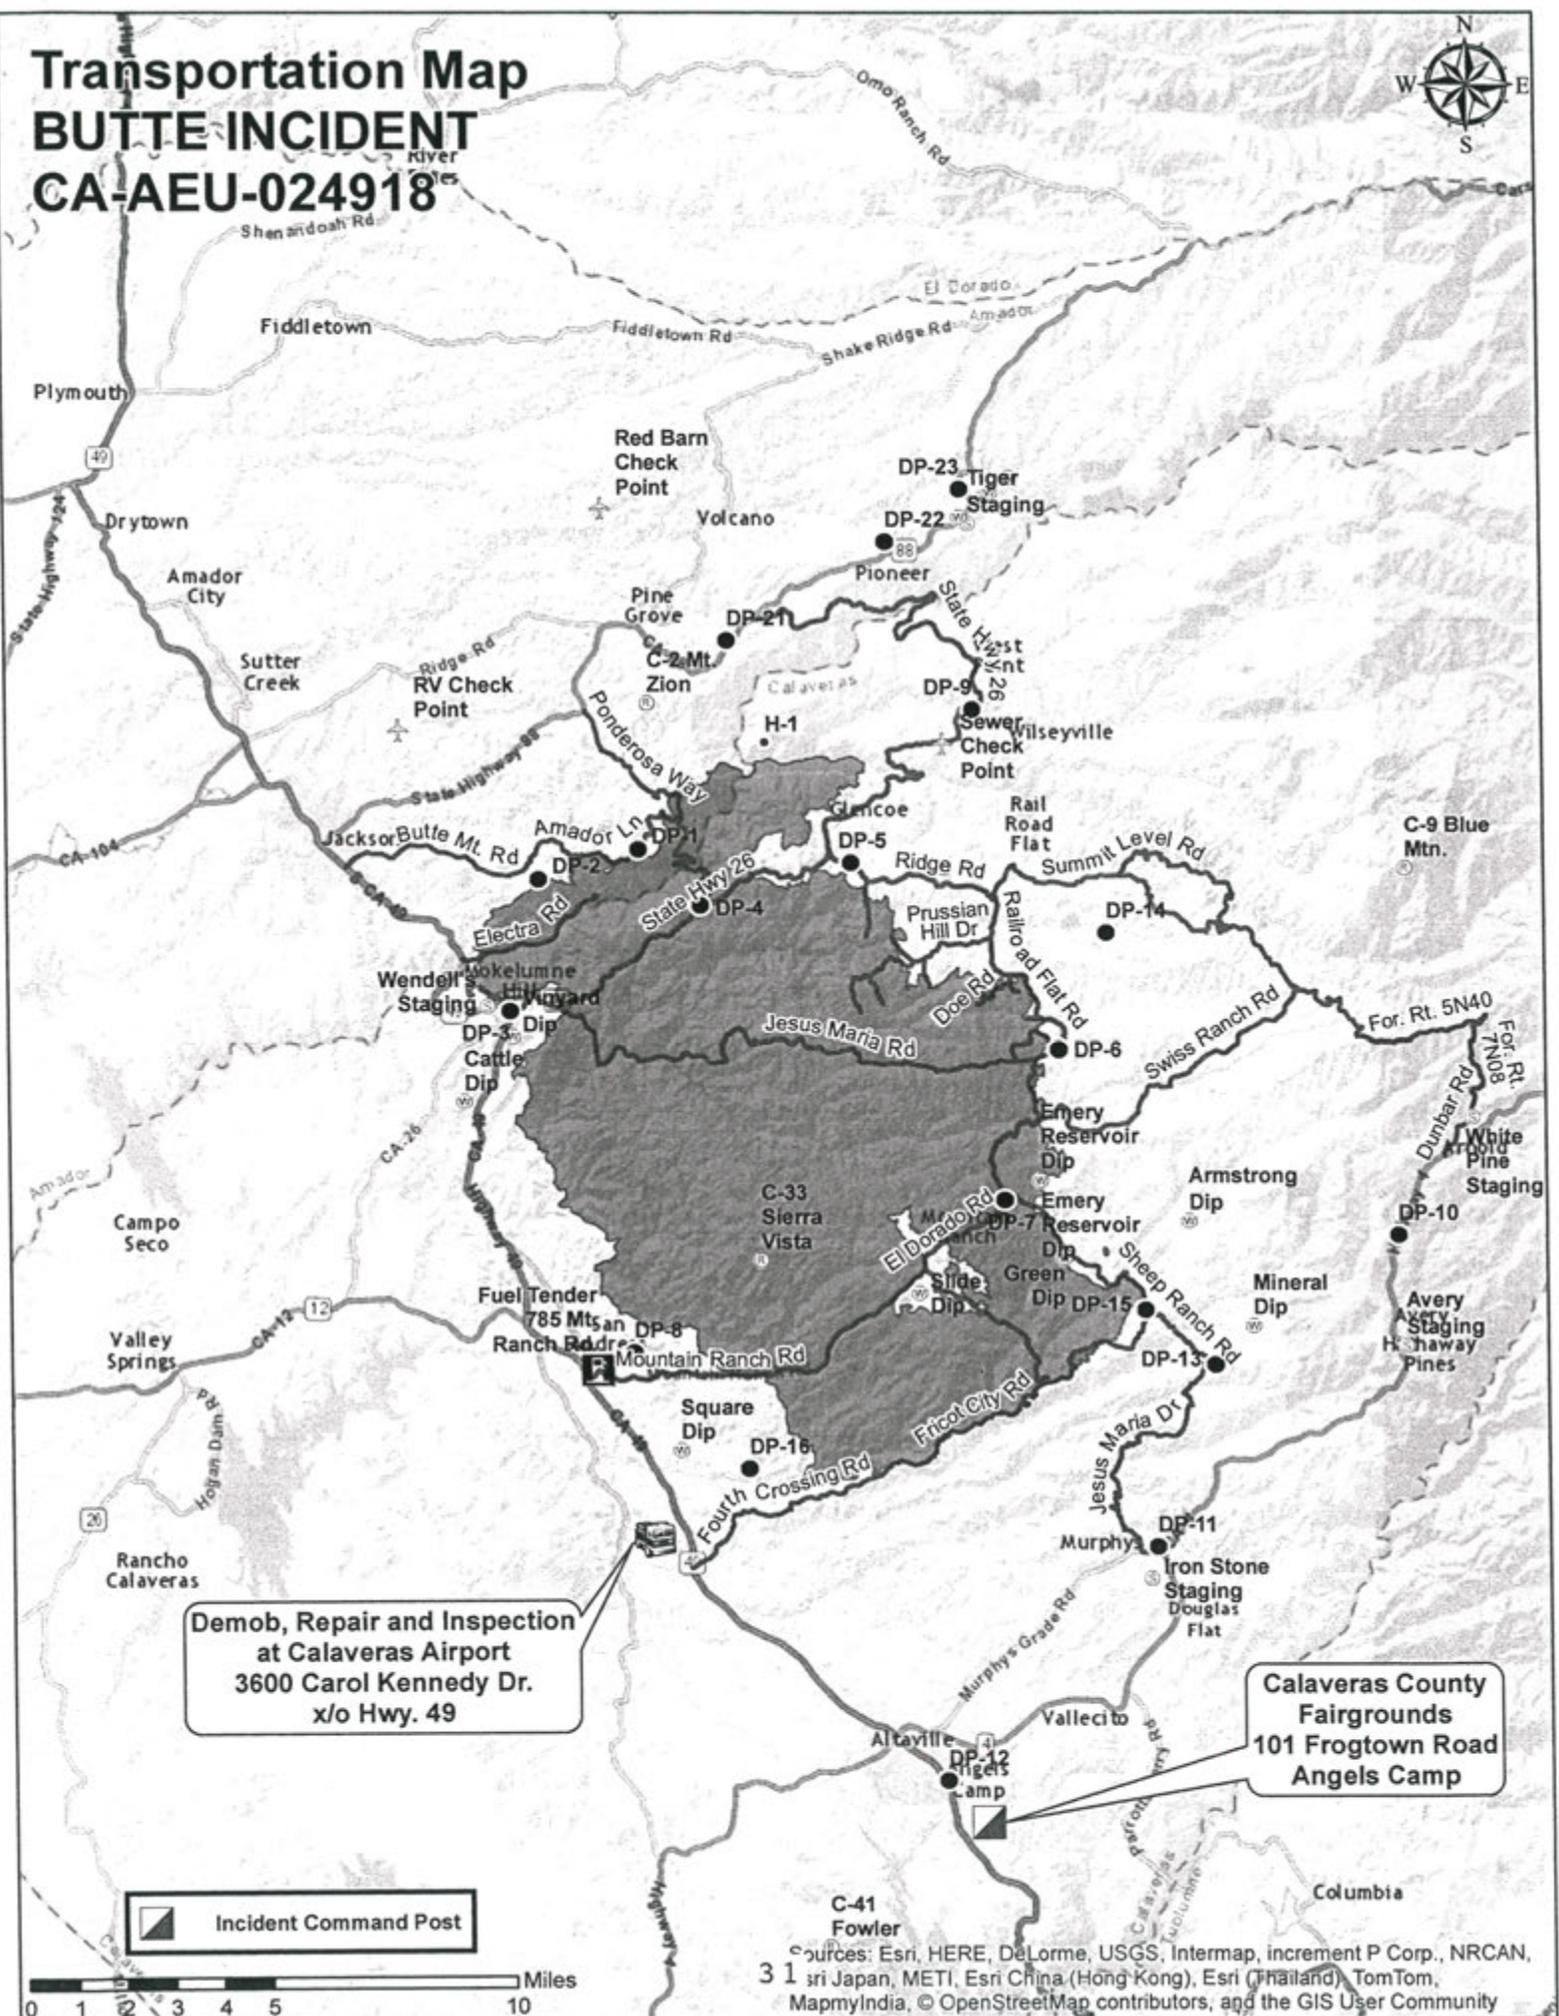

We are now experiencing an increase in DEMOB'S with the incident. Please come by early to close out your training package and check out with us PRIOR to starting the DEMOB process.

Training Specialist
Steve Hurdle
