Ralston Fire

September 10, 2006

Notes on RALSTON FIRE Infrared Flight
09/09/06 Approximately 21:50
Flight by plane N144Z CESSNA CITATION

Ralston Fire:

The heat perimeter from this flight represents an increase of approximately 1,880 acres from the previous IR flight on the 7th. The heat perimeter is at 4,260 acres up from 2,380 acres. This imagery displays that the fire still has not crossed the Rubicon river or the north fork.
