VEHICLE REGISTRATION AND DRIVER LICENSE INFORMATION

Immediately notify DMV when you change your address, sell your vehicle, or are involved in an accident causing injury, death, or over \$750 in damage. Vehicle License and Title Stops (VLT)

VLT Stops are internal holds on a record and require DMV processing before a record can update. There are numerous VLT Stops that *may* appear in the RECORD STATUS portion of a CLETS response. Not all VLT Stops invalidate the privilege to operate a vehicle.

The following VLT Stop messages are for dishonored checks and usually invalidate the operating privilege.

- DC-Registration Not Currently Paid (RSN 59)
- Expired Year May Be Incorrect (RSN 61)
- Registration Revoked MM/DD/YY (RSN 62 or 63)

Contact DMV's Involuntary Transfer Section at (916) 657-7704 for the following VLT Stop messages:

- Urgent Referral (RSN 60)
- Law enforcement Only (RSN 68)

The following additional information *may* display:

- Possible VIN switch vehicle
- Vehicle seized pending forfeiture
- Possible hit and run
- Suspected stolen vehicle
- Vehicle to be seized
- Wanted Person

Department of Justice Stop (DOJ)

DMV has record of a *potential* stolen or felony vehicle record as reported by DOJ.

Follow your agency protocols for such instances.

Parking/Toll Disposition Codes

A or 1 = Paid to the court

B or 2 = Not guilty

C or 3 = Fine (Bail) suspended by the court

D or 5 = Fine paid to DMV

F or 6 = Transfer or Lease date

(Only applicable on incomplete transactions involving Transfer of Registered Owner(s). The "Transfer" of the vehicle occurred AFTER the "Issue Date" of the citation. In this scenario, DMV sends the Parking/Toll citation information back to the issuing agency.)

H or 8 = Recalled by the court

I or 9 = Paid to the court

P = Violation information was PRINTED on the DMV Renewal Notice. (This does not mean "Paid")

Insurance Information

Effective July 1, 2006 the following new insurance information messages will display on responses to vehicle record inquiries from law enforcement and court personnel with CLETS access.

The messages will appear below the DATE: and TIME: response fields.

If a DOJ stop is present, the information will display directly following the DOJ STOP notice.

<i>Message</i>	<i>Reason for Message</i>
<ul style="list-style-type: none"> • INSURANCE INFORMATION ON FILE 	DMV has received insurance information electronically from the insurance company.
<ul style="list-style-type: none"> • INSURANCE INFORMATION UNKNOWN 	DMV has not received insurance information electronically, or the insurance information has not successfully updated on DMV records.
<ul style="list-style-type: none"> • INSURANCE RECORD UNAVAILABLE RETRY IN 15 MINUTES 	The record is temporarily unavailable. Try another inquiry in 15 minutes.
<ul style="list-style-type: none"> • PENDING RECORD, INSURANCE STATUS NOT CHECKED 	The vehicle registration application has not been completed. Insurance information is not yet required.

Vehicle operators are still required by law to carry evidence of insurance in the vehicle and provide the evidence upon request.

The following two messages will display on or after October 1, 2006

<ul style="list-style-type: none"> • VEH REG SUSPENDED EFF: MM/DD/CCYY 	The vehicle owner has failed to obtain or maintain liability insurance.
<ul style="list-style-type: none"> • AFFIDAVIT OF NON-USE RECEIVED 	The owner has notified the DMV of his or her intention to not use the vehicle. NOTE: <i>The message is for insurance use only and does not replace the need for filing PNO status at the end of the current registration year.</i>

=====

NOTE: Commercial and Business carriers are EXEMPT from electronic reporting. Customers whose vehicles are covered by commercial or business policies must submit hardcopy evidence of insurance within 30 days of registering a newly acquired vehicle.

=====

ERRORS: Sometimes errors occur which causes the record to not update correctly. If the vehicle's record indicates a suspension or no insurance on file, but a valid document is presented, the officer must take all evidence into consideration before issuing a citation. This will be a field decision.

Electronic Insurance Q & A's

THE FOLLOWING QUESTIONS AND ANSWERS PROVIDE THE MOST CURRENT INFORMATION AVAILABLE TO THE DEPARTMENT:

1. **Q:** *Do owners still have to carry insurance information in their vehicles?*

A: Yes. Statute still requires presentation of insurance information to peace officers upon demand (VC §16020).

2. **Q:** *Does VC §4000.38 amend other VC sections to provide additional law enforcement powers?*

A: No. There have not been any new laws enacted to add additional enforcement powers relating to VC §4000.38.

3. **Q:** *When is insurance verified on a vehicle transfer and if a buyer cannot complete a vehicle transfer due to repair or smog issues, will the owner receive a temporary operating permit from DMV?*

A: Verification of insurance will be done electronically after the transfer has been completed and a registration card has been issued. An operating permit will be issued using the same requirements as before.

4. **Q:** *If an individual changes insurance companies, will the cancellation of the first policy generate a suspension letter?*

A: It could if the new insurance information is not updated within 45 days of the cancellation. When a customer receives a letter of intent to suspend the registration, it instructs the customer to submit proof of insurance by a specific date. If the customer does not submit proof of insurance and/or the insurance company fails to submit the new insurance information within 45 days of the cancellation, the registration will be suspended. Evidence of financial responsibility and the \$14 fee will be due to end the suspension.

5. **Q:** *If a vehicle registration record shows the registration as suspended and the subject presents a valid insurance card, does this mean the insurance card being presented is no longer valid or fraudulent?*

A: Not always. It is possible that the subject or the insurance company has not provided DMV with the proof of insurance, but has reinstated their insurance. The officer reviewing the insurance card will be required to make the determination of the validity of the card.

6. **Q:** *If an owner has not yet paid the reinstatement fee but acquires insurance, does the registration automatically become valid?*

A: No. Both the fee and proof of insurance must be submitted to the department to validate the registration.

Electronic Insurance Q & A's

7. **Q:** *How soon will the vehicle registration record be updated after proof of compliance and fee payment have been received?*

A: Generally within two business days.

8. **Q:** *Are commercial or business carriers required to comply with electronic reporting criteria?*

A: Commercial or business insurance carriers are exempt from electronic reporting. However, customers whose vehicles are covered by commercial or business policies must submit hardcopy evidence of insurance within 30 days of registering a newly acquired vehicle.

9. **Q:** *If the record indicates that there is an Affidavit of Non-Use (ANU) on file, may the driver be cited under 4000(a) VC?*

A: No. A vehicle must be currently registered to be eligible for an affidavit of non-use (ANU). An ANU indicates the insurance was cancelled by owner's choice and registration will not be suspended. A certificate of planned non-operation (PNO) indicates the vehicle is not going to be used, it is not currently registered, and it must be parked off the streets or highways and not driven. Vehicles driven when the record indicates PNO may be cited using VC §4000(a). Vehicles driven when the record indicates an ANU may be cited for no insurance, VC §16020(a) if the driver does not produce proof of insurance when requested by an officer.

Conditions In Process (Pending Status)

TIP (Transaction In Process)	DMV or applicant has completed transaction
<p>The Transaction in Process (TIP) is a recently completed transaction. Updated registration documents are given to the person completing the transaction including plates/stickers <u>if</u> issued. The record <u>will not</u> reflect transaction information until the update is completed, which may take 2 to 10 days.</p>	
RIP (RDF In Process)	Applicant has not completed the transaction
<p>The Report of Deposit of Fees in Process (RIP) is an incomplete transaction that requires the <u>applicant</u> to provide additional documentation and/or fees. On a RIP, all submitted documents and a receipt with instructions to complete the transaction are <u>returned</u> to the <u>applicant</u>. New information is stored in a “Pending Master File Record” (<i>see below</i>). Once the transaction is completed, a TIP will then be set and the Pending Master File is deleted.</p>	
SIP (Suspense In Process)	DMV has not completed the transaction
<p>The Suspense In Process (SIP) indicates a pending record due to further internal processing by DMV. The customer has submitted satisfactory documents and/or fees. If the vehicle record indicates a SIP, and the operator does not have a valid TOP or sticker, the applicant must inquire with DMV.</p> <p>Once a SIP is finalized, a TIP will be set on the record. It may take days, weeks, or on occasion months to complete SIP applications.</p>	
EIP (Error In Process)	DMV has an error on file
<p>In rare situations, a transaction may contain an error. In such cases, an Error in Process (EIP) status is placed on the record. If a vehicle record indicates an EIP, refer the operator to DMV.</p>	
PENDING MASTER FILE	Displays with a RIP/SIP only
<p>Pending Master File information displays at the bottom of a CLETS response when there is an “<u>incomplete</u>” transaction (RIP or SIP). The data displayed in this portion of the printout will show the latest name and address information at the time of inquiry.</p> <p>If the name and address data in the Pending Master File is different than the name and address information at the top of the response (Registered Owner of Record), it indicates that a <u>change of ownership</u> has occurred. If the name and address in the Pending Master File is the same as the top of the response (Registered Owner of Record), <u>no change</u> of ownership has occurred.</p>	

Release of Liability

RELEASE OF LIABILITY (REG 138)	Transfer of Ownership has occurred
<p>Notice of Release of Liability (NRL) (REG 138) information indicates the department has been notified of a change in ownership. If applicable, your CLETS response can store multiple Release of Liability updates. If this occurs, the Release of Liability with the most recent “TRANSFER DATE” is the one with precedence. Once the transfer of the vehicle is completed, all RELEASE OF LIABILITY (REG 138) data is deleted from CLETS as ownership requirements have been met.</p>	
<p style="text-align: center;">REGISTERED OWNER OF RECORD VS. “RESPONSIBLE” PARTY NOTICE OF RELEASE OF LIABILITY (CVC §§5602 AND 5900)</p>	
<p>The registered owner or the person in physical possession of a vehicle being sold or transferred must submit a completed Notice of Release of Liability (NRL) (REG 138) to the department within five calendar days of the sale/transfer.</p> <ul style="list-style-type: none">— The department cannot update the vehicle record if the transfer data is missing. <p>Owners who sell/transfer and deliver possession of a vehicle and a properly endorsed Certificate of Title to the purchaser are not subject to civil or criminal liability for the:</p> <ul style="list-style-type: none">— parking,— abandonment, or— operation of the vehicle by another provided the owner has delivered or mailed a REG 138 to the department or has submitted to the department the documents and fees required to transfer ownership of the vehicle to the new owner.	

NOTE: *In cases where legal service notifications are required, it’s advisable to print your CLETS response to validate your decisions at the time of your analysis. As record status can change at any time, any NRL or PENDING MASTER FILE information is only as good as the time and date you run the inquiry.*

For purposes of “releasing” vehicles (with a PENDING MASTER FILE on record), the Responsible Party is usually the name of the individual(s) in the PENDING MASTER FILE. If a different individual wants to have the vehicle released, they will need proper titling documents, fees and certifications to place the vehicle in their name and on the DMV database.
