➤ **Logging & Heavy Equipment Operations and Road Conditions**

➤ **Demob Safety**

➤ **Complacency**

➤ Logging salvage operations and road maintenance continues. Slow down and give these machines a wide berth when passing. Watch the road surfaces. Avoid standing water and soft shoulders. By reducing your speed—you'll be safer and not rip up the forest roads too.

➤ Anticipating Demob can be a stressful time, and during stressful times accidents can occur. While you are going through the process think safety at all times until you arrive home to your loved ones.

➤ Even though this fire is winding down, this is not a time for complacency. Please remain focused on your assignment and maintain your situational awareness. Everyone has done an excellent job with safety on this incident. Don't Stop Now!!
