| <p>5. General Control Objectives for the incident (include alternatives)</p> <ol style="list-style-type: none"> 1. Provide for firefighter and public safety. Firefighters will not be deployed within the swamp to fight active fire. 2. Implement suppression actions as needed to protect private investments and improvements and facilities in Stephen Foster State Park. 3. Manage the fire(s) within the swamp under a surveillance/containment strategy in accordance with suppression actions recommended in the WFSA. Contain the fire to the area north of SR 2; east of Swamp Road in Ware County; south and west of US Hwy 1 and the CSX Railroad line; and within the Perimeter Road, monitoring fire advance within the swamp interior in Okefenokee National Wildlife Refuge. 4. Protect key resources including threatened and endangered species and their habitat, over-night canoe shelters, and other resources. 5. Protect the integrity of the Okefenokee Wilderness. 6. Manage the fire(s) in a cost effective and efficient manner commensurate with estimates developed in the WFSA. | | | | | | | | | | | | | | | | | | |

Fire Weather Forecast

FORECAST NO: 11

NAME OF FIRE: Big Turnaround Complex

PREDICTION FOR: Day & Night Ops

UNIT: Okefenokee Wildlife Refuge

SHIFT DATE: Wednesday 05/16/07

SIGNED: Kelly Hooper/J Rothfuss(t)

TIME AND DATE 1800

Incident Meteorologist

FORECAST ISSUED: 05/15/2007

WEATHER DISCUSSION:

High pressure will weaken and move east as a cold front moves toward the area from the northwest. The front will move into the complex area Wednesday night with a chance of showers and possible thunderstorms.

The main concern: **Thunderstorms developing with lightning strikes.**

WEATHER FORECAST DAY SHIFT Wednesday:

WEATHER: Partly cloudy.

MAX TEMPERATURES: 87 (24 hour trend = no change)

MIN HUMIDITY: 28 to 33 percent (24 hour trend = 3 percent lower)

20 FT WINDS: South 10 mph with gusts to 15 mph.

STABILITY/INVERSION: Mixing heights around 7000 ft in the afternoon. Dispersion Index 55. Haines Index 4 (low).

WEATHER FORECAST NIGHT SHIFT Wednesday night:

WEATHER: Mostly cloudy with a 30 percent chance of showers and possible thunderstorms toward morning.

MIN TEMPERATURES: Around 60. (24 hour trend = no change)

MAX HUMIDITY: Recovery to 80 percent near the fire and near 100 percent elsewhere.

20 FT WINDS: South 5 to 10 mph then decreasing to less than 5 mph.

STABILITY/INVERSION: Shallow inversion less than 300 feet. Dispersion Index around 3.

OUTLOOK FOR Thursday: Mostly cloudy with a 30 percent chance of showers and possible thunderstorms. Winds north 10 mph with gusts to 15 mph afternoon. High near 82. Minimum rh around 40.

SUNRISE/SUNSET: Wednesday May 16th...0632/2015

EXTENDED...

High pressure will build over the area Friday and will be over the area into early next week. Drier air can be expected over the area through the period.

Fire Behavior Forecast

| | | | |
|--|--|---|--------------------|
| INCIDENT | Big Turnaround Complex | OPERATIONAL PERIOD | 05/16/07 Day/Night |
| ADMINISTRATION UNIT | Okefenokee NWR | FORECAST # | 26 |
| WEATHER SUMMARY: | | | |
| Slightly drier with a cold front approaching from the NW. | | | |
| DAY SHIFT: | | NIGHT SHIFT: | |
| Sky Condition: Partly cloudy. Max Temperature: 87°F Minimum RH's: 28-33% Wind Speeds: South @ 10, gusts to 15. Dispersion Index: 55, Haines @ 4 | | Sky Condition: Mostly cloudy, chance of thunderstorms toward morning (30%). Min Temperature: 60°F Max RH's: 80% near fire, 100% elsewhere Wind Speeds: South decreasing to less than 5 overnite. Dispersion Index: 3, Shallow inversion. | |
| GENERAL FIRE BEHAVIOR: | | | |
| DAY Shift: | | NIGHT Shift: | |
| On the hill: Head fire will have: FL – 15-25 feet ROS – 30 ch/hr SPOTTING – < 0.3 mile POI – 67% | In the Swamp: Head fire will have: FL – 70-90 feet - torching ROS – 70 ch/hr SPOTTING – <0.3 mile POI – 67% | Wind decreasing to <5. Head fire potential (late): FL – 20/45 feet - hill/swamp ROS – 15/30 ch/hr - hill/swamp | |
| SPECIFIC FIRE BEHAVIOR: | | | |
| <p><i>All Divisions: Slightly higher rates of spread than yesterday; however, fire intensity and probability of ignition turned out to be the larger issues then, and will almost certainly be again today. Both relate to ability to hold line and both are significantly up from yesterday. Crown torching levels will return to almost continuous with heading fire in both the swamp and on the hill. Both firing and holding operations may be further complicated by changing wind direction.</i></p> <p><i>Structure: Okefenokee administrative site is not likely to be impacted by fire spread during this operational period... although smoke may be an issue.</i></p> <p><i>IA: Expect moderate to extreme fire behavior with fires establishing quickly.</i></p> | | | |
| AIR OPERATIONS: | | | |
| Patchy fog this morning. | | | |
| SAFETY: | | | |
| Lookouts are critical when chasing spots. | | Predicted ERC for today is 41. | |

HEALTH AND SAFETY MESSAGE

Major Hazards and Risks:

***Aircraft Operations**

***Road Closures**

***Demob**

Narrative:

*** Aircraft Operations:** The helicopters on our incident are a big help --- and also a big hazard to folks on the ground. It is imperative that every individual is aware of helicopters as they come in to do their work. Clear the area as the helicopters do their job and be heads up to slick surfaces, broken tops, etc. as you return to work.

*** Road Closures:** We still have several road closures in the fire area. This **DOES NOT** give us the right to speed up and down these roads. They were closed for the safety of the public **AS WELL AS FIREFIGHTERS!** Watch your speed – not only on the closed roads, but on all the roads we travel.

*** Demob:** We have a lot of folks listed on the DEMOB sheets in the IAP. As you approach the end of your assignment periods, continue to be heads up to all the situations that you encounter. We want you all to end your assignments the way you started, and have continued every day --- **SAFELY!**

REMEMBER AND FOLLOW:

***The 10 Standard Fire Orders**

***The 18 Situations That Shout Watch Out**

***LCES**

Fire Order of the Day: Be alert. Keep calm. Think clearly. Act decisively.

YOUR safety is our NUMBER ONE goal.

Safety Officers: John Walker, Tom Krueger, Ron Garcia, Art Tranberg, Mark Helm, John Daly, Dick Schwecke, Don Ranne, Bud Clark, John Strom, Bill Miller, Harry Lester, and George Marcott.

HUMAN RESOURCE MESSAGE

PATIENCE AND TOLERANCE IS OUR GUIDE

The Demobe list is getting quite long.... This is one of the two times on every incident to be especially vigilant.

During the first couple of days of an incident the excitement, adrenalin rush, and unknowns seem to dim our Situational Awareness switch. We experience a lot of accidents and conflicts during these few days.

Likewise, the last couple of days a similar phenomenon occurs. While we are physically here, our minds have already started to leave for home. We find ourselves thinking of home, the return trip, the seeing friends and family, the recounting of our experiences.....

Again our Situational Awareness switch gets tripped!! Our patience for anyone or anything that gets in our mental path is not what it was.
-----And as for Tolerance—we don't need no stinking tolerance!!

RED FLAG WARNING!!! Make sure you keep yourself safe and practice the principles which will leave others remembering you well.

Fire fighters saved a possible new Smokey in the Refuge yesterday.. see photos of the rescue from the fire at <http://www.news4jax.com/slideshow/13319023/index.html>

8. Medical Emergency Procedures

Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the closest line EMT, or resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone. (Big Turnaround ICP 912-496-2111)

Mutual Aid ambulance is staged at Fargo Church Of God in Fargo. They can be reached at 912-218-4223 day/night. They monitor Channel 3, Georgia Mutual Aid 154.280. Identifier is Fargo EMS Staging.

The report should include type of illness/injury and exact location of the incident. Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.
