

Big Turnaround East Zone

**Incident Action Plan
WEDNESDAY
June 6, 2007
Southern Area IMT Ruggiero**

INCIDENT OBJECTIVES	1 INCIDENT NAME Big Turnaround Complex - East Zone	2. DATE PREPARED 06/05/2007	3. TIME PREPARED 1800									
4. OPERATIONAL PERIOD (DATE/TIME) June 6, 2007 0700 – 1900 OPERATIONAL PERIOD												
5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) <ol style="list-style-type: none"> 1. Ensure firefighter and public safety through adherence to all safety standards, maintaining situational awareness and appropriate implementation of evacuations, closures, and temporary flight restrictions. 2. Protect / minimize threats / loss to private investments; key cultural features as listed in the Delegation of Authority; and protect the integrity of the Okefenokee Wilderness. 3. Manage the fires within the swamp under a containment strategy in accordance with suppression actions outlined in the WFSA. In the East Zone, contain the fire west of the Swamp Perimeter Road in Charlton County; South and west of Hwy. 1 and the CSX Railroad line; and within the Swamp Road. 4. Provide accurate and timely information to agencies, stakeholders, and the public through public meetings, news releases, website updates, reports, meetings and personal contacts. 5. Manage the East Zone cost effectively and in an efficient manner to contain the fire within the acres and cost prescribed by the WFSA. 6. Manage any ongoing and future road and fireline rehab work. Begin documenting upland habitats that require restoration work, and provide the Refuge, National Forest, and the State Forest(s) with a working Emergency Stabilization and Rehabilitation Plan as required by each agency as needed. 												
6. WEATHER FORCAST FOR OPERATIONAL PERIOD See attached Weather and Fire Behavior Forecast for detailed information.												
7. GENERAL/SAFETY MESSAGE A. There are 6-35 trains/day on the CSX tracks in Branch I: there are few automatic railroad crossing warning devices:. stop before crossing the tracks and verify it is safe before crossing the tracks. B. GFC will assume command on any escapes /IA outside Perimeter Road; assist as needed. C. Include snag awareness in all briefings. D. SOF's and FOB's to notify DIVS as they enter/leave divisions.

ORGANIZATION ASSIGNMENT LIST		
1. Incident Name BIG TURNAROUND COMPLEX – EAST ZONE		
2. Date 06/05/2007	3. Time 2200	
4. Operational Period June 6, 2007 0700 - 1900		
Position	Name	
5. Incident Commander and Staff		
Incident Commander	Mark Ruggiero	
Deputy		
Safety Officer	John Walker/Tom Krueger	
Information Officer	Mary Bell Lundsford/Michelle Fidler	
Liaison Officer	Bobby Kitchens	
6. Agency Representative		
Agency	Name	
FWS	Howard McCullough	
FWS	Russ Langford	
FWS	Pat Pearson	
GFC	Eric Harris	
Charlton Co. EM	Sgt. Joey Chancy	
GEMA/Charlton Co.	Gary Rice	
GEMA/Ware Co.	Vicki Thompson	
7. Planning Section		
Chief	David Brownlie	
Resources Unit	Kennedy/Fitzgerald/Noack	
Situation Unit	Roger Fryar	
FOBS	L. Wadley/S. Nagle	
Documentation Unit		
Demobilization Unit	Paul Kaiser	
GIS	Schmeckpeper/Stuart/Adams	
Human Resources	Mick Michelson	
Training	Mike Steele	
FBAN	Bruce Davenport	
IMET	John Quagliariello	
CTSP	Doug Logan	
Rehabilitation	Sue Wilder	
8. Logistics Section		
Chief	Steve Comeaux/John Bellemore	
Supply Unit	Teddy Messenger	
Facilities Unit	Scott Matheny (T)	
Ground Support Unit	Stan Jones/Randy Harwood	
Communications Unit	Mike Shipley	
Medical Unit	Jesus Hernandez	
Security Unit	Jeff Jauschneg	
Food Unit		

9. Operations Section		
Chief	Mike Dueitt/Mark Jamieson	
Deputy		
a. Branch I - Division/Groups		
Branch Director	Dennis Hackett	
Deputy		
Division/Group	A-B	J. Bowling/B. Hinton
Division/Group	C-F	Michael Carlson
Division/Group	G	Kyle Smith R.E. Vann (T)
Division/Group	H-I	Rick Anderson Jeff Dion (T)
Division/Group	J	Steve Guckian
Division/Group	K-M	Matt Hoehna
b. Branch II - Division/Groups		
Branch Director	Dennis Hackett	
Deputy		
Division/Group		
c. Branch III - Division/Groups		
Branch Director		
Deputy		
Division/Group		
d. Air Operations Branch		
Air Operations Branch Director	Doug Grimmett	
Air Tactical Supervisor	Kevin Walsh	
Air Support Supervisor	John Vinson	
Helicopter Manager	Mike O'Leary	
Air Tanker Coordinator		
10. Finance Section		
Chief	Shardul Raval	
Deputy		
Time Unit	Sandra Smith/Mike Perez(T)	
Procurement Unit	Christy Smith	
Compensation/Claims Unit	Ed Harris	
Cost Unit	Carolyn Detwiler/Bonita Truett(T)	
Prepared by (Resource Unit Leader) Kathleen Kennedy/Susan Fitzgerald/Fred Noack		

Fire Weather Forecast

FORECAST NO: 33

NAME OF FIRE: Big Turnaround Complex

PREDICTION FOR: Day Shift

UNIT: Okefenokee Wildlife Refuge

SHIFT DATE: Wednesday 06/06/07

SIGNED: John Quagliariello
Incident Meteorologist

TIME AND DATE 1900
FORECAST ISSUED: 06/05/2007

WEATHER DISCUSSION:

An upper level ridge of high pressure will build over the area today and Thursday, resulting in warmer and drier conditions. Only isolated showers and thunderstorms are expected, mainly associated with the sea breeze boundary.

WEATHER FORECAST WEDNESDAY:

WEATHER: Partly cloudy. Isolated showers and thunderstorms in the afternoon. Chance of rain 20 percent.

MAX TEMPERATURES: Around 94. (24 hour trend = up 7 degrees)

MIN HUMIDITY: 38 to 43 percent (24 hour trend = down 12 percent)

20 FT WINDS: West-southwest 4 to 9 mph with gusts to 15 mph, becoming south after 1700.

STABILITY/INVERSION: Mixing heights around 7500 ft.

Dispersion Index 60. Haines Index 4.

TRANSPORT WINDS: West-southwest 14 mph.

WEATHER FORECAST WEDNESDAY NIGHT:

WEATHER: Mostly clear. Patchy fog late.

MIN TEMPERATURES: Low around 70.

MAX HUMIDITY: Recovery near 100 percent.

20 FT WINDS: South 3 to 7 mph through 2000, then becoming light and variable.

STABILITY/INVERSION: Inversion to 400 feet. Dispersion Index 4.

OUTLOOK FOR THURSDAY: Mostly sunny. Isolated showers and thunderstorms in the afternoon. Chance of rain 20 percent. High around 94. Minimum humidity 40 to 45 percent. Southwest winds 2 to 5 mph, becoming south 4 to 9 mph in the afternoon.

SUNRISE/SUNSET: Wednesday June 6...0625/2029

EXTENDED...

The upper level ridge of high pressure will begin to break down on Friday, allowing a frontal boundary to drop into Georgia and stall through the weekend.

	Friday	Saturday	Sunday	Monday

Fire Behavior Forecast

INCIDENT	Big Turnaround Complex	OPERATIONAL PERIOD	06/06/07 Day Shift
ADMINISTRATION UNIT	Okefenokee NWR	FORECAST #	48
WEATHER SUMMARY:			
Warmer and drier under building high pressure with only isolated showers and thunderstorms. Minimum humidity 38-43%. WSW winds 4-9 mph with gusts to 15, becoming South after 1700. See attached Fire Weather Forecast.			
GENERAL FIRE BEHAVIOR:			
	Swamp Fuels	Upland Pine	
Flame Length (feet)	7	5	
Rate of Spread (ch/hr)	15	15	
Spotting Distance (miles)	0.2	0.2	
Probability of Ignition (%)	34	51	
SPECIFIC FIRE BEHAVIOR:			
<p><i>All Divisions: Despite warmer and drier conditions, significantly lighter winds will reduce potential fire behavior from yesterday's prediction. Overall, fuels are slightly drier, since rainfall yesterday again varied widely. Some stations around the fire recorded no rain at all. Look for moderate behavior from heading fires with available fuels. Escapes into the upland pine should be the greatest concern once more... along with ignitions from the large number of lightning strikes during the last two days. Again, water retention in the swamp should limit fire spread, but continued drying will make more above-ground fuels available each day. ROS for heavy needle cast is modeled at 3-ch/hr with 2-foot flame lengths.</i></p> <p>Structure: Okefenokee administrative site should not be impacted by fire spread during this operational period.</p> <p>IA: Expect moderate fire behavior once fires become established.</p>			
AIR OPERATIONS:			
No restrictions after 0900.			
SAFETY:			
Despite rainfall during the last two days, amounts have fluctuated widely and some areas could have been missed completely. Size-up each fire individually.			
Predicted ERC for today is 43... 90th percentile is 35.

7. Control Operations Patrol and mop-up 300 feet. Continue to suppress re-burn pockets. Assign resources to secure accessible area in and around Swamp Park area. Pull extra hose and hardware out of Swamp Park. Clean up the public canal area of Swamp Park and fall hazard trees. Use available heavy equipment to maintain and improve roads.							
8. Special Instructions Be prepared to assist GFC with I/A as requested. Logging operations support will be coordinated through Incident Communications to provide IA support for Divisions A-F. Division A- stop at all railroad crossings. Inform Communications of any problems with the Command Repeater such as dead spots, broken transmissions, etc. Identify and begin felling snags that potentially endanger firefighters or members of the public.

Rehab Specifications

Dozer Lines

General Description: Rehabilitation of suppression constructed “Dozer Lines” and “Berms” is necessary to avoid excessive soil erosion and restore natural landscape surface water flow.

Location (Suitable) Sites: See incident map for location of known dozer lines and berms. Berms with merchantable timber have been identified on incident maps. Additional lines should be rehabilitated as they are discovered in the field. All discoveries will be turned into situation unit and subsequently mapped.

Berm Definition: Berms with merchantable timber embedded within that is mixed with soil and smaller debris.

Merchantable Timber Definition: Minimum 2” top and 20 foot length.

Design/Construction Specifications

For areas with Merchantable Timber: Use excavator with thumb to remove the merchantable timber from the berm. Scatter the debris and soil into the fireline area. Lay out logs with the butt end towards the road. Leave the road open and in good shape. Merchantable timber will be removed at a later date. Ditches should be pulled and the road graded after the timber has been salvaged.

For areas with Non-merchantable Timber: Use heavy equipment to scatter debris and soil into the fireline area. Leave the road open and in good shape. Ditches should be pulled and the road graded after the timber has been salvaged.

HEALTH AND SAFETY MESSAGE

Major Hazards and Risks:

***Dehydration**

***Driving**

***Complacency**

Narrative:

***Dehydration:** The weather forecast for today calls for temperatures in the 90's. Be sure to drink plenty of fluids and keep an eye on your fellow firefighters for signs of dehydration.

***Driving:** A lot of us are spending quite a bit of time behind the wheel. Be sure to get adequate rest and take frequent breaks if you begin to feel tired. Dirt roads and dozer lines will continue to be slick and muddy. Use caution on the roads and stay off the dozer lines.

***Complacency:** The last few days on the fire line have been slow and uneventful. This is the time to be extra vigilante. Think before you act, use your head and be smart.

REMEMBER AND FOLLOW:

***The 10 Standard Fire Orders**

***The 18 Situations That Shout Watchout**

***LCES**

Fire Order of the Day: Maintain control of your forces at all times.

YOUR Safety is our NUMBER ONE goal.

IMT Safety Officers: John Walker and Tom Krueger

8. Medical Emergency Procedures	
<p>Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the closest line medic, and resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone (Big Turnaround ICP 912-496-2111). Communications to notify MEDL @ 904-955-0022 / 602-702-2440 / 520-560-2742.</p> <p>The report should include type of illness/injury and exact location of the incident. Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.</p> <p>After hours emergencies in Kingsland and/or Folkston: Call 911, then call communications @ 912-496-2111. Communications will call MEDL and designated paramedics will be routed to the scene to facilitate transportation needs.</p>

INCIDENT EMERGENCY PLAN (IEP)

The goal of this Incident Emergency Plan (IEP) is to provide the guidelines necessary to Locate, Triage, Extricate, Treat and Transport accident Patients. The Division/Group Supervisor will initially oversee the emergency. Radio communication will be on the "Command Frequency". Names of injured or deceased individuals should not be given over the radio. Deceased individuals and their equipment are not to be moved, except to accomplish rescue work or to protect the health and safety of others. It is expected this organization will come from resources assigned within the Division or nearest adjoining forces.

DIVISION/GROUP SUPERVISOR

- Conduct Size-up of the Incident (Nature of Accident, Number/Type of Resources, Location)
- Coordinate "Line EMT" response to the accident (Utilize Closest EMT's).
- Begin "TRIAGE"
- Determine and initiate treatment and transportation needs
- Evaluate special needs (Law Enforcement, Heavy Rescue, Haz Mat)
- Coordinate with Air Attack for Air-Medical transportation needs
- Preserve the scene for accident investigation

MEDICAL GROUP SUPERVISOR (This position will be filled, only if needed)

- Supervise TRIAGE, Treatment and Transportation Unit Leaders.
- Place orders through Communications for ground ambulance, medical personnel, as needed
- Ensure proper security and traffic control.

TRIAGE UNIT LEADER (This position will be filled, only if needed)

- Locate and TRIAGE all patients and relays information to Medical Group Supervisor.
- Ensure that Airway, Breathing and Circulation stabilization of patients is addressed during TRIAGE.
- Coordinate with Treatment Unit Leader for patient stabilization, extrication, and movement to treatment area.
- Utilize the "START" TRIAGE system.

TREATMENT UNIT LEADER (This position will be filled, only if needed)

- Establishes Immediate, Delayed and Minor treatment areas.
- Direct treatment and stabilization of Patients.
- Prioritize Patients for transport.
- Request medical personnel and supplies, as needed.
- Ensure continual TRIAGE of patients in treatment area.
- Coordinate with TRIAGE Unit leader for delivery of patients to the treatment area.
- Coordinate with the Transportation Unit Leader for delivery of patients to ambulances.
- Ensure documentation of patient conditions and treatments on TRIAGE tags.

TRANSPORTATION UNIT LEADER (This position will be filled, only if needed)

- Coordinate all patient transportation to medical facilities, air and ground.
- Establish communication with hospitals receiving patients.
- Coordinate with Treatment Unit Leader to determine number and category of patients.
- Designate ambulance/helicopter loading areas.
- Determine mode (air/ground) of patient transportation.
- Ensure patients information and destination is recorded.

- MINOR: Walking Wounded
- DELAYED: CAN Follow Simple Commands
- IMMEDIATE: Respirations have been restored
Respirations above 30
Radial Pulse Absent
Capillary Refill > 2 seconds
CAN NOT Follow Simple Command
- FATALITY: No Respirations after head tilt

FINANCE NOTES

If you can not and do not take a lunch or dinner break, you must document the reason in the remarks section of the crew time report.

**** Examples: No dinner meal break taken because; no meal available; unable to leave post; break taken at end of shift.**

SIGN IN PROCEDURE

Meals may not exceed per diem rates of B-\$7, L-\$11, D-\$18.

Ticket or sign-in sheet – name, resource #(C, E, or O), fire name. Crew boss may provide manifest for names. All names of crew must be recorded for meals consumed. If recording on ticket, use front where possible.

Use govt. travel card if you have one.

Govt. will not pay for alcohol, movies or phones.

If you are on per diem, deduct any meals you sign for, or which are provided by the govt., from your travel.

The McDonalds in Folkston is offering a firefighter discount.
