

Big Turnaround

Incident Action Plan MONDAY

June 11, 2007

**“It’s another beautiful day in southeast Georgia”
Southern Area IMT Ruggiero**

INCIDENT OBJECTIVES	1 INCIDENT NAME Big Turnaround Complex	2. DATE PREPARED 06/10/2007	3. TIME PREPARED 1800									
4. OPERATIONAL PERIOD (DATE/TIME) June 11, 2007 0700 – 1900 OPERATIONAL PERIOD												
5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) <ol style="list-style-type: none"> 1. Ensure firefighter and public safety through adherence to all safety standards, maintaining situational awareness and appropriate implementation of evacuations, closures, and temporary flight restrictions. 2. Protect / minimize threats / loss to private investments; key cultural features as listed in the Delegation of Authority; and protect the integrity of the Okefenokee Wilderness. 3. Manage the fires within the swamp under a containment strategy in accordance with suppression actions outlined in the WFSA. Contain the fire within the Swamp Perimeter Road; South and west of Hwy. 1 and the CSX Railroad line; and east of the Swamp Road. 4. Provide accurate and timely information to agencies, stakeholders, and the public through public meetings, news releases, website updates, reports, meetings and personal contacts. 5. Manage the incident cost effectively and in an efficient manner to contain the fire within the acres and cost prescribed by the WFSA. 6. Manage any ongoing and future road and fireline rehab work. Document upland habitats that require restoration work, and provide that documentation to the ESR-BAER Group Team Leader promptly. 												
6. WEATHER FORCAST FOR OPERATIONAL PERIOD See attached Weather and Fire Behavior Forecast for detailed information.												
7. GENERAL/SAFETY MESSAGE A. There are 6-35 trains/day on the CSX tracks in Branch I: there are few automatic railroad crossing warning devices: stop before crossing the tracks and verify it is safe before crossing the tracks. B. GFC will assume command on any escapes /IA outside Perimeter Road; assist as needed. C. Include snag awareness in all briefings. D. SOF's and FOB's to notify DIVS as they enter/leave divisions.

Fire Weather Forecast

FORECAST NO: 38

NAME OF FIRE: Big Turnaround Complex

PREDICTION FOR: Day Shift

UNIT: Okefenokee Wildlife Refuge

SHIFT DATE: Monday 06/11/07

SIGNED: John Quagliariello
Incident Meteorologist

TIME AND DATE 1900
FORECAST ISSUED: 06/10/07

WEATHER DISCUSSION:

An easterly flow will develop today, allowing for an increase in moisture and slightly cooler conditions across the complex. Scattered showers and thunderstorms are possible this afternoon, with chances of precipitation increasing tonight and Tuesday as an upper level disturbance crosses the area.

WEATHER FORECAST MONDAY:

WEATHER: Mostly sunny, becoming partly cloudy around midday. Scattered showers and thunderstorms in the afternoon. Chance of rain 30 percent.

MAX TEMPERATURES: Around 96. (24 hour trend = down 5 degrees)

MIN HUMIDITY: 30 to 35 percent (24 hour trend = up 12 percent)

20 FT WINDS: East 3 to 6 mph, increasing to 6 to 11 mph with gusts to 18 mph in the afternoon, then shifting east-southeast after 1700.

STABILITY/INVERSION: Mixing heights around 8500 ft.
Dispersion Index 60. Haines Index 4.

TRANSPORT WINDS: East-southeast 16 mph.

WEATHER FORECAST MONDAY NIGHT:

WEATHER: Partly cloudy with scattered showers and thunderstorms. Chance of rain 40 percent.

MIN TEMPERATURES: Low around 70.

MAX HUMIDITY: Recovery 95 to 100 percent.

20 FT WINDS: Southeast 5 to 10 mph through 2000, then decreasing to 3 to 7 mph.

STABILITY/INVERSION: Inversion to 600 feet. Dispersion Index 5.

OUTLOOK FOR TUESDAY: Mostly cloudy with scattered showers and thunderstorms. Chance of rain 50 percent. High around 89. Minimum humidity 40 to 45 percent. East-southeast winds 3 to 7 mph, becoming northeast 6 to 11 mph with gusts to 18 mph in the afternoon, then shifting east after 1700.

SUNRISE/SUNSET: Monday June 11...0624/2031

EXTENDED...

Cooler temperatures, higher relative humidity levels, and good chances of precipitation will persist through Thursday due to an onshore wind component and the passage of several upper level disturbances. Warmer and drier conditions are expected Friday and Saturday.

	Wednesday	Thursday	Friday	Saturday
Low	68°	66°	64°	66°
High	83°	83°	86°	88°

Fire Behavior Forecast

INCIDENT	<i>Big Turnaround Complex</i>	OPERATIONAL PERIOD	06/11/07 Day Shift
ADMINISTRATION UNIT	<i>Okefenokee NWR</i>	FORECAST #	53
WEATHER SUMMARY:			
<p>Mostly sunny, becoming partly cloudy around midday. Scattered showers and thunderstorms are possible in the afternoon. Chance of rain 30%. Minimum humidity 30-35%. Winds out of the east, from 3 to 6, increasing to 6 to 11 with gusts to 18 mph in the afternoon, then shifting east-southeast after 1700. See attached Fire Weather Forecast.</p>			
GENERAL FIRE BEHAVIOR: Day Shift			
	Swamp Fuels	Upland Pine	
Flame Length (feet)	14	10	
Rate of Spread (ch/hr)	35	30	
Spotting Distance (miles)	0.4	0.4	
Probability of Ignition (%)	59	68	
SPECIFIC FIRE BEHAVIOR:			
<p>All Divisions: The drying trend is continuing, consequently the fire behavior is increasing. The bay fuels are continuing to support a surface fire. The upland pine fuels will continue to have active to very active fire behavior with rates of spread near 30 ch/hr and 10 foot flame lengths. The possibility of some torching exists. The interior islands will continue to burn and with all the lightning from the day before, there could still be some holdover fires that show up today. The re-burn potential of the needle cast is increasing also, the rate of spread is modeled at 5-ch/hr with 2-foot flame lengths.</p>			
<p>Structure: Okefenokee administrative site should not be impacted by fire spread during this operational period.</p>			
<p>IA: Expect active fire behavior once fires become established.</p>			
AIR OPERATIONS:			
Late thunderstorms will be the only limiting factor to air operations.			
SAFETY:			
The fire is still showing life, don't become complacent.			
Predicted ERC for today is 45... 90th percentile is 35.

7. Control Operations Patrol and mop-up 300 feet. Identify potential reburn areas and continue to suppress re-burn pockets. Use available heavy equipment to maintain and improve roads. Perform rehab as per attached rehab standards in approved areas. Backhaul excess hose lay and equipment.							
8. Special Instructions <u>*SEE COMMUNICATIONS PLAN FOR CLOSEST COMMAND REPEATER AND FREQUENCY.</u> Be prepared to assist with I/A as requested. Logging operations support will be coordinated through Incident Communications. Remember to stop at all railroad crossings. Identify and fell snags that potentially endanger firefighters or members of the public. Inform Communications of any problems with the Command Repeater such as dead spots, broken transmissions, etc.

Rehab Specifications

Dozer Lines

General Description: Rehabilitation of suppression constructed “Dozer Lines” and “Berms” is necessary to avoid excessive soil erosion and restore natural landscape surface water flow.

Location (Suitable) Sites: See incident map for location of known dozer lines and berms. Berms with merchantable timber have been identified on incident maps. Additional lines should be rehabilitated as they are discovered in the field. All discoveries will be turned into situation unit and subsequently mapped.

Berm Definition: Berms with merchantable timber embedded within that is mixed with soil and smaller debris.

Merchantable Timber Definition: Minimum 2” top and 20 foot length.

Design/Construction Specifications

For areas with Merchantable Timber: Use excavator with thumb to remove the merchantable timber from the berm. Scatter the debris and soil into the fireline area. Lay out logs with the butt end towards the road. Leave the road open and in good shape. Merchantable timber will be removed at a later date. Ditches should be pulled and the road graded after the timber has been salvaged.

For areas with Non-merchantable Timber: Use heavy equipment to scatter debris and soil into the fireline area. Leave the road open and in good shape. Ditches should be pulled and the road graded after the timber has been salvaged.

HEALTH AND SAFETY MESSAGE

Major Hazards and Risks:

***Heavy Equipment**

***Situational Awareness**

Narrative:

*** Heavy Equipment:** We still have a lot of heavy equipment scattered around in all branches of the fire. As you work around this equipment, keep your mind on what you are doing. If you have to approach some of this equipment, always make sure that the operator sees you. Do not take any chances until the operator acknowledges that you have been seen.

*** Situational Awareness:** We have the entire perimeter of the fire now. Some of us are in new territory, or territory we haven't seen in a while. Make sure you know where you are going and that you know your way back. Keep your eyes and ears open to everything around you. We all know that things can change in an instant. Be heads up to any changes that might occur that could affect you or your fellow firefighters.

REMEMBER AND FOLLOW:

***The 10 Standard Fire Orders**

***The 18 Situations That Shout Watch Out**

***LCES**

Fire Order of the Day: Know what your fire is doing at all times.

.

YOUR Safety is our NUMBER ONE goal.

IMT Safety Officers: John Walker and Tom Krueger

HUMAN RESOURCE MESSAGE

PATIENCE AND TOLERANCE IS OUR GUIDE

A couple of thousand years ago in a part of the world currently torn by dissention and armed conflict, a wise man spoke some words for us.

Paraphrased, he said-----

That perhaps the best way we can care for ourselves, is to care for others.....

That if we really wanted something we needed to give it away...

As a professional fire fighter on this incident, we are the keepers of our brother and sisters.....

And perhaps even more importantly they are our keepers.

Keep them safe and out of harms way.

Human Resource Specialist cell 540-354-6165
Mick Michelsen

8. Medical Emergency Procedures	
<p>Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the closest line medic, and resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone (Big Turnaround ICP 912-496-2111). Communications to notify Larry Nunez MEDL @ 904-955-0022 or Med Unit @ 912-218-9101.</p> <p>The report should include type of illness/injury and exact location of the incident. Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.</p> <p>After hours emergencies in Kingsland and/or Folkston: Call 911, then call communications @ 912-496-2111. Communications will call MEDL and designated paramedics will be routed to the scene to facilitate transportation needs.</p>	
9. Prepared by (Medical Unit Leader) Larry Nunez	10. Reviewed by (Safety Officer) John Walker

INCIDENT EMERGENCY PLAN (IEP)

The goal of this Incident Emergency Plan (IEP) is to provide the guidelines necessary to Locate, Triage, Extricate, Treat and Transport accident Patients. The Division/Group Supervisor will initially oversee the emergency. Radio communication will be on the "Command Frequency". Names of injured or deceased individuals should not be given over the radio. Deceased individuals and their equipment are not to be moved, except to accomplish rescue work or to protect the health and safety of others. It is expected this organization will come from resources assigned within the Division or nearest adjoining forces.

DIVISION/GROUP SUPERVISOR

- Conduct Size-up of the Incident (Nature of Accident, Number/Type of Resources, Location)
- Coordinate "Line EMT" response to the accident (Utilize Closest EMT's).
- Begin "TRIAGE"
- Determine and initiate treatment and transportation needs
- Evaluate special needs (Law Enforcement, Heavy Rescue, Haz Mat)
- Coordinate with Air Attack for Air-Medical transportation needs
- Preserve the scene for accident investigation

MEDICAL GROUP SUPERVISOR (This position will be filled, only if needed)

- Supervise TRIAGE, Treatment and Transportation Unit Leaders.
- Place orders through Communications for ground ambulance, medical personnel, as needed
- Ensure proper security and traffic control.

TRIAGE UNIT LEADER (This position will be filled, only if needed)

- Locate and TRIAGE all patients and relays information to Medical Group Supervisor.
- Ensure that Airway, Breathing and Circulation stabilization of patients is addressed during TRIAGE.
- Coordinate with Treatment Unit Leader for patient stabilization, extrication, and movement to treatment area.
- Utilize the "START" TRIAGE system.

TREATMENT UNIT LEADER (This position will be filled, only if needed)

- Establishes Immediate, Delayed and Minor treatment areas.
- Direct treatment and stabilization of Patients.
- Prioritize Patients for transport.
- Request medical personnel and supplies, as needed.
- Ensure continual TRIAGE of patients in treatment area.
- Coordinate with TRIAGE Unit leader for delivery of patients to the treatment area.
- Coordinate with the Transportation Unit Leader for delivery of patients to ambulances.
- Ensure documentation of patient conditions and treatments on TRIAGE tags.

TRANSPORTATION UNIT LEADER (This position will be filled, only if needed)

- Coordinate all patient transportation to medical facilities, air and ground.
- Establish communication with hospitals receiving patients.
- Coordinate with Treatment Unit Leader to determine number and category of patients.
- Designate ambulance/helicopter loading areas.
- Determine mode (air/ground) of patient transportation.
- Ensure patients information and destination is recorded.

- MINOR: Walking Wounded
- DELAYED: CAN Follow Simple Commands
- IMMEDIATE: Respirations have been restored
Respirations above 30
Radial Pulse Absent
Capillary Refill > 2 seconds
CAN NOT Follow Simple Command
- FATALITY: No Respirations after head tilt

FINANCE NOTES

Time Reports (OF-288's) for Regular Federal Government employees were faxed to their home units.

Ensure Equipment Shift Tickets have correct dates.

If you can not and do not take a lunch or dinner break, you must document the reason in the remarks section of the crew time report.

**** Examples: No dinner meal break taken because; no meal available; unable to leave post; break taken at end of shift.**

INCIDENT TRAINING – 06-11-2007

Last Chance!

Are you training for an ICS position?

Have you stopped by the Training Specialist yet?

You need to come see me as soon as you start your training assignment. I am available from 0700 to 2030. I am located in trailer #2 at the Big Turnaround ICP.

If I am gone please take an Incident Training Data Form which is located on the table at my work space. Complete the form & see that I get it back. I would like to meet with you and your evaluator ASAP to document your assignment and assist you in any way that I can. I will make sure your Home Unit is sent a training completion package at the end of your training assignment if our Team is still managing the incident. Be sure you get a final evaluation before you leave the incident and drop one off at Documentation one at Training, and keep the original for yourself.

If you are currently a trainee you need to think about completing your assignment while the Red Team is still in place. Trainees need to come by and see me by Mon. 11th to close out their training assignment.

Mike Steele
Training Specialist
Southern Area Red Team
