

### Incident Status Summary (ICS-209)

1: Date <b>06/23/2011</b>	2: Time <b>1833</b>	3: Initial   Update   Final <b>XX</b>	4: Incident Number <b>GA-GAS-201103</b>	5: Incident Name <b>RACEPOND</b>		
6: Incident Kind <b>Wildfire (Full Suppression/Perimeter Control)</b>		7: Start Date Time <b>05/25/2011 1500</b>	8: Cause <b>Lightning</b>	9: Incident Commander <b>Troy Floyd</b>	10: Incident Command Organization <b>Type 2 Team</b>	11: State- Unit <b>GA- GAS</b>
12: County <b>CHARLTON</b>	13: Latitude and Longitude Lat: <b>30° 59' 27"</b> Long: <b>82° 6' 38"</b> Ownership: <b>GA-GAS</b>		14: Short Location Description (in reference to nearest town): <b>12 MILES S OF HOBOKEN GA</b>			
15: Size/Area Involved <b>21,103 ACRES</b>	16: % Contained or MMA <b>60 Percent</b>	17: Expected Containment Date: <b>06/25/2011</b>	18: Line to Build <b>15 Miles</b>	19: Estimated Costs to Date <b>\$2,789,248</b>	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: <b>0</b>	22: Injuries to Date: <b>1</b>	23: Fatalities <b>0</b>	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- <b>XX</b> No likely threat -----			Residence	<b>200</b>	<b>0</b>	<b>0</b>
			Commercial Property			
			Outbuilding/Other	<b>300</b>		
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: <b>Movement will be to the E/NE</b> 24 hours: <b>Movement will be to the E/NE</b> 48 hours: <b>Movement will be to the E/NE</b> 72 hours: <b>Movement will be to the E/NE</b>						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: <b>The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.</b> 24 hours: <b>The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.</b> 48 hours: <b>The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.</b> 72 hours: <b>The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The</b>						

**Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.**

28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames):

12 hours: **3 STEN, 3 TFLD, Engine Strike Teams are preferred but single resources engines are ok.**

24 hours: **3 STEN, 3 TFLD, Engine Strike Teams are preferred but single resources engines are ok.**

48 hours: **3 STEN, 3 TFLD, Engine Strike Teams are preferred but single resources engines are ok.**

72 hours: **3 STEN, 3 TFLD, Engine Strike Teams are preferred but single resources engines are ok.**

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.

**Extremely dry conditions make control difficult, Firefighter fatigue. Sea breezes pose difficulties in line containment. Reburning due to needle fall in areas that were previously burned. Structures on along east line near Randall Crews Road are still threatened until mopup and line improvement is completed.**

30: Observed Weather for Current Operational Period

Peak Gusts (mph): **20** Max.

Temperature: **94**

Wind Direction: **SW** Min.

Relative Humidity: **48**

31: Fuels/Materials Involved: **7 Southern Rough Palmetto, Gallberry, Titi, pine straw, hardwood understory**

32: Today's observed fire behavior (leave blank for non-fire events):

**Small Flareups, Smoldering**

33: Significant events today (closures, evacuations, significant progress made, etc.):

**An average of 1 inch of rain fell on the Waycross area assisting with control efforts. More accurate mapping with GPS on the ground.**

34: Forecasted Weather for next Operational Period

Wind Speed (mph): **5-10** Temperature: **93**

Wind Direction: **SW** Relative Humidity:

**42**

35: Estimated Control

Date and Time:

**06/25/2011 1400**

36: Projected Final Size:

37: Estimated Final Cost:

38: Actions planned for next operational period:

**Continue to complete control line and improve existing ones on the east and south flanks. Secure the Racepond Community and mopup around the Fort Mudge Community. Continue to set up structure protection at the Okefenokee State park and provide structure protection as needed.**

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**

2. Difficulty of Terrain - **Medium**

40: Given the current constraints, when will the chosen management strategy succeed?

**Until a significant rain event, control is unlikely in the near future**

41: Projected demobilization start date:

42: Remarks:

**A 40% Chance of thunderstorms tomorrow. New starts from lightning is a concern. The area received an average of 1 inch of rain. Rain will continue through the night. Division A**

**was mapped with GPS on the ground, This is the reason for the slight reduction in acreage.**

**43: Committed Resources (Supplemental Committed Resources follow the first block)**
