

Incident Status Summary (ICS-209)

1: Date 10/16/2010	2: Time 2200	3: Initial Update Final XX	4: Incident Number LA-KIF-011009	5: Incident Name Wrangler		
6: Incident Kind Wildfire (Full Suppression/Perimeter Control)		7: Start Date Time 10/12/2010 1545	8: Cause Lightning	9: Incident Commander Dan McDonlad	10: Incident Command Organization Type 3 Team	11: State-Unit LA-KIF
12: County Natchitoches	13: Latitude and Longitude Lat: 31° 30' 30" Long: 93° 4' 0" Ownership: LA-KIF		14: Short Location Description (in reference to nearest town): 20 miles SW of Natchitoches			
15: Size/Area Involved 640 ACRES	16: % Contained or MMA 30 Percent	17: Expected Containment Date: 10/20/2010	18: Line to Build 5 Miles	19: Estimated Costs to Date \$400,000	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: 0	22: Injuries to Date: 0	23: Fatalities 0	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- XX Potential future threat ----- No likely threat -----			Residence	12	0	0
			Commercial Property			
			Outbuilding/Other	12	0	0
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: Fire will continue to advance predominantly to the south with some additional spread both to the east and west. 24 hours: Fire movement will continue to advance mostly to the south with an expected northerly component wind. Fire spread will be mostly influenced by topography and fuel conditions as winds are predicted to be light. 48 hours: 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: RCW habitat and developed recreation sites may be impacted by the advancing fire. 24 hours: Pine plantations on private timber company lands and primary residences on private lands adjacent to the wilderness boundary may be impacted by fire and/or smoke depending on the fire's advancement. 48 hours: 72 hours:						
28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: 24 hours: 48 hours: 72 hours:						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. prolonged drought, extreme fire behavior and smoke impacts to local roads and Interstate 49.						

30: Observed Weather for Current Operational Period Peak Gusts (mph): 10 Max. Temperature: 87 Wind Direction: NNW Min. Relative Humidity: 18	31: Fuels/Materials Involved: 7 Southern Rough Longleaf and shortleaf pine intermixed with little bluestem, hardwood timber and Yaupon.
--	--

32: Today's observed fire behavior (leave blank for non-fire events):
Moderate fire behavior with flame lengths between 1 and 5 feet. Moderate to high rates of spread were observed in the late afternoon as humidities dropped into the upper teens.

33: Significant events today (closures, evacuations, significant progress made, etc.):
Transition from local Type III organization to Type II IMT. Significant progress was made today with establishing secondary control lines along the eastern boundary of the wilderness area.

34: Forecasted Weather for next Operational Period Wind Speed (mph): 5 Temperature: 87 Wind Direction: N Relative Humidity: 21	35: Estimated Control Date and Time:	36: Projected Final Size:	37: Estimated Final Cost:
--	--------------------------------------	---------------------------	---------------------------

38: Actions planned for next operational period:
Continue with line construction and line improvements in DIV E and DIV B. Possible burnout operation planned in Division B.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**
2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?

41: Projected demobilization start date:

42: Remarks:
Southern Area Incident Management Team (Blue Team - Quesinberry) will assume management of the incident on 10/17/10. Efforts will continue to focus on containing the fire within the Kisatchie Hills Wilderness Area and minimizing smoke impacts to local communities and Interstate 49.

43: Committed Resources (Supplemental Committed Resources follow the first block)
