

# PAINS BAY FIRE

NC-ALR-111006  
PRF3FT (1502)

## Incident Action Plan ***SATURDAY***

May 14, 2011

0730-1930 hrs

<b>INCIDENT OBJECTIVES</b>	<b>1. Incident Name</b>	<b>2. Date Prepared</b>	<b>3. Time Prepared</b>
	<b>PAINS BAY FIRE</b>	<b>5/13/2011</b>	<b>1500hrs</b>
<b>4. Operational Period</b>			
Saturday, May 14, 2011 0730 to 1930 hrs			
<b>5. General Control Objectives For The Incident (Include Alternatives)</b>			
<u>Management Objectives:</u>			
<ol style="list-style-type: none"> <li>1. Firefighter and Public Safety is the NUMBER 1 Priority.</li> <li>2. Protect Stumpy Point Community.</li> <li>3. Work with County EMS and VFDs to develop trigger points for Stumpy Point Evacuation.</li> <li>4. Contain the fire within established boundaries for indirect attack suppression strategy, using burn out fires as needed.</li> <li>5. Assess the ability to open Dare Bomb Range to military operations on a daily basis.</li> </ol>			
<u>Operational Objectives:</u>			
<ol style="list-style-type: none"> <li>1. Prepare indirect fire lines along Longcurve, Faircloth, Air Force Perimeter, and Stomper Roads for burn out operations.</li> <li>2. Establish trigger points for burn out operations in Divisions D and E.</li> <li>3. Patrol and monitor fire line along Lake Worth Road.</li> <li>4. Hold fire north of US 264 in Division A where possible.</li> </ol>			
<b>6. Weather Forecast For Period</b>

<b>8. Medical Emergency Procedures</b>							
<p>Report all injuries and illnesses to the closest DIVS. DIVS will notify ICP Communications and include the extent of the injury and transportation needed. A medical emergency should be declared over the radio immediately. All radio traffic will be kept to a minimum so emergency procedures can proceed uninhibited. ICP Communications will notify Dare Central Dispatch (911) and MEDL. Safety will be notified. Dare County EMS will respond and determine the appropriate treatment, transportation and facility needed. If ground transportation is determined, if possible assign personnel to meet the ambulance at a location that is easily accessible to lead them to the site of the injured. If patient is transported to meet EMS personnel needs to remain with patient until EMS has arrived. EMTP is staged at NCDNR Maintenance Building to respond to injuries and stabilize patient until EMS Personnel arrives.</p> <p>For Non emergencies contact the Medical Unit Leader located at ICP. Transportation and treatment will be arranged by MEDL at ICP.</p>

**WEATHER FORECAST - Saturday day shift 5/14/11**

Jim Merrell – Incident Meteorologist

**WEATHER DISCUSSION**

A warm front with a weak area of low pressure will move through from the southwest today. Complex slow moving low pressure to the northwest will push a cold front toward the area from the west tonight and Sunday. The front will stall near the coast Monday through Wednesday with several areas of low pressure moving up along it. Weak high pressure will build in from the west Thursday and Friday.

**WEATHER FORECAST – Saturday**

**Weather:** Mostly cloudy. 60 percent chance of showers and thunderstorms, mainly late afternoon. Rainfall amounts up to one quarter inch. **Slight risk that thunderstorms could be severe with hail and damaging winds into evening.**

**Temperatures:** Maximum near 78 around 1600.

**Humidity:** Minimum 55 percent around 1600.

**20 FT winds:** Southeast 10 mph early, becoming south 10-15 mph gusting to 20 mph by afternoon.

**Haines Index:** 3.

**Stability/Inversion:** Inversion burning off by 0900. Mixing height 4300 ft agl. Transport wind south 15 mph.

**Forecast for Saturday night**

Mostly cloudy. 60 percent chance of showers and thunderstorms, mainly during the evening. Rainfall amounts around a tenth of an inch. Minimum temperature around 66. Maximum RH 90-100 percent. Winds south 10-15 mph.

**OUTLOOK FOR Sunday**

Mostly cloudy. 40 percent chance of showers and thunderstorms. Rainfall amounts up to one quarter inch. Maximum temperature around 78. Minimum RH around 60 percent. Winds south around 15 mph gusting to 22 mph.

**EXTENDED FORECAST:**

**Sunday night - Wednesday...** Mostly cloudy with a chance of showers and thunderstorms through the period. Best chance Monday night and Tuesday. Highs mid to upper 70s. Lows 60-65. Minimum RH around 60 percent. South to southwest winds 5-15 mph. Rainfall amounts a quarter to one half inch.

**Thursday – Friday...** Partly cloudy. Highs in the mid 70s. Lows around 60.

 **FIRE BEHAVIOR - Friday - day - May 14, 2011**

FBAN – Michael Durfee, Scott Ludlum 5/13/2011 – 19:00

**Fire Behavior Discussion**

The rates of spread occurring in the (Tall Brush) Pocosin fuels will be similar to the observed for yesterday. If any rain falls expect very little forward ROS but continued smoldering ground fire. Ground fire activity is spreading. Ground fuels are moist at approximately 8-14 inches. Ground fire should not go deeper than 18”-20”, as the water table is currently at this depth.

**Tall Brush (Pocosin) – ROS:** 17-45 chains / hr **FL:** 11-20 feet **Spotting Distance** 0.1 miles **POI** 39%

**DIVS A, C, and D:** Continued smoldering surface fuels with ground fire, Possible isolated torching in brush pockets. Watch for the southeast winds to possible increase the spreading ground fire where exposed along the northwest plow lines.

**DIVS B, E:** Minimal fire activity (smoldering and ground fire in available fuels) should be expected.

**Evaluate your work area prior to engagement for: fire weakened burned out trees, snags, stump holes, burned out roots, and other peat or hot ground areas. IRPG v2010 (Gold pg. 20-21)**

**WATCH OUT FOR ANY DEVELOPING OR OCCURRING THUNDERSTORMS – Review the Thunderstorm safety section in the IRPG v2010 (Gold pg. 19)**

□ **SAFETY MESSAGE: Steve Counts (T)/ Pat Sheridan**

**HAZARDS/MITIGATIONS TODAY**

**Thunderstorm Safety**

Observe the 30/30 rule: If you see lightning and hear the thunderclaps follow in less than 30 seconds, take the following storm precautions:

Take shelter in a vehicle.

If outdoors, find a low spot away from tall trees, utility lines and other elevated objects.

If in open country, crouch low, with feet together, minimizing contact with the ground. You can use a pack to sit on, but never lay on the ground.

Don't group together.

**Roadside Response Safety**

Exit the vehicle away from the roadway whenever possible.

Post lookouts to watch for and control traffic.

Keep all hose, fire tools, and equipment out of traffic lanes.

Use emergency lights whenever stopped on or beside travel lanes.

**Standard Firefighting Orders:**

1. Keep informed on fire weather conditions and forecasts.

**Watch Out Situations:**

11. Unburned fuel between you and the fire.

**TRAINING MESSAGE**

If you haven't checked in with the Training Specialists, please do so as soon as possible.

Trainees need to remember to check out with the Training Specialists prior to being demobed to complete the paperwork and discuss the training assignment.

Larry Moore, Training Specialist
